Class of 2013 First Destination Survey – Executive Summary

ABOUT THE SURVEY

The purpose of the annual first destination survey is to capture information on the employment and graduate school status of Messiah College alumni within six to nine months of graduation. For the purposes of this survey, the “Class of 2013” is defined as anyone who graduated in December 2012, May 2013, or August 2013.

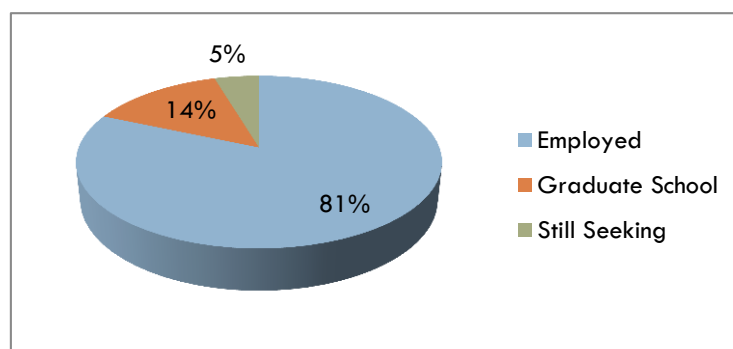

Statistics provided are based on information received through a variety of methods. An electronic survey was created using Qualtrics, and distributed in May and October via email. Data was also gathered from 2013 graduates who attended the “Zero-Year Reunion” at Homecoming. Follow up emails were then sent in November and December to alumni who had not yet responded to the survey. In January, individual academic departments were contacted via phone or email, and a request was distributed to all Messiah College educators for any additional information on graduates whose status remained unknown. Finally, information on non-responders was then gathered from updated professional profiles on social media sites such as LinkedIn. It is important to note that the collection process and reporting summary of results adheres to the professional guidelines set forth by NACE (the National Association for Colleges and Employers).

Through this extensive process, we obtained a 76 % knowledge rate of the Class of 2013. (“Knowledge rate” is defined by NACE as the “percent of graduates for which an institution has reasonable and verifiable information concerning the graduates’ post-graduation career activities”). The 76% knowledge rate is a 6% increase from last year’s report of the Class of 2012.

The goal of this report is to provide summary highlights, as well as a breakdown by academic department, of the post-graduate activity for the Class of 2013.

GENERAL SUMMARY

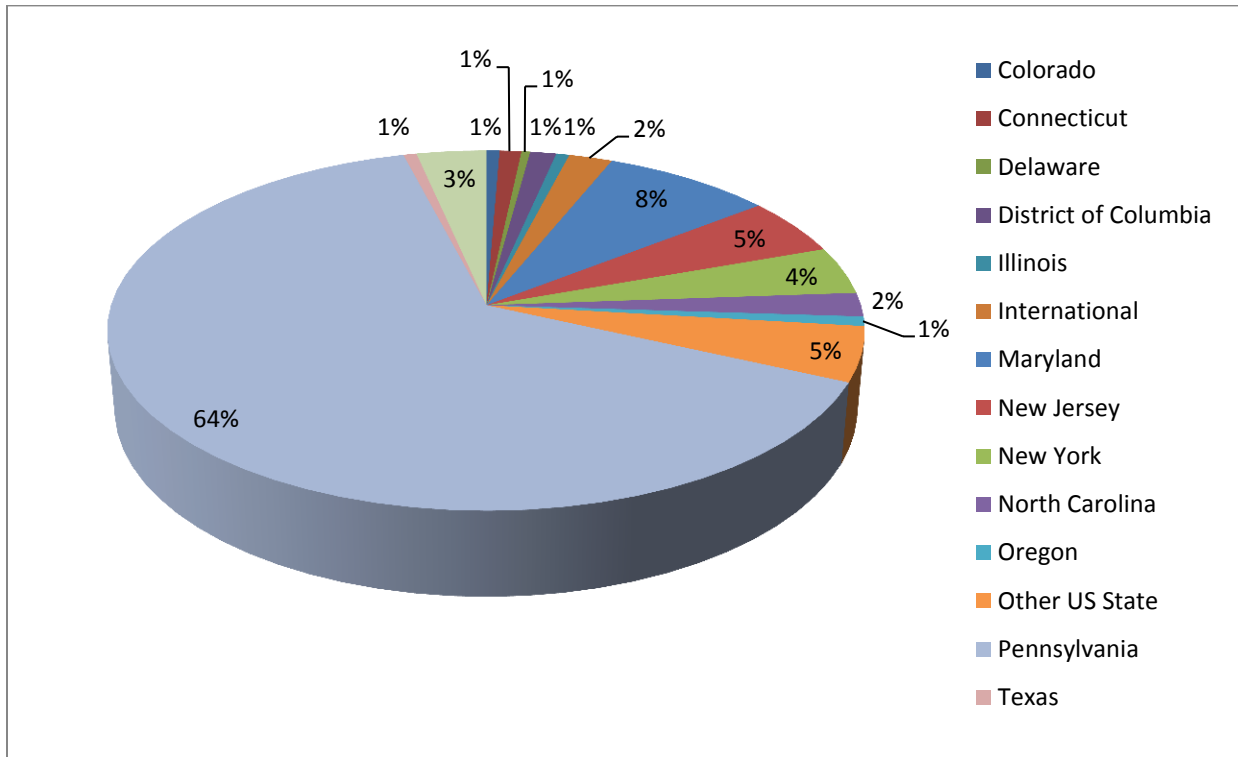

Graduates of the Class of 2013 were asked to identify their **primary status** 6 to 9 months after graduation.

95% of the Class of 2013 survey respondents were employed or in a graduate school or professional program within 6 to 9 months after graduation. 81% of the respondents secured employment while 14% indicated a graduate or professional program as their primary activity.

GEOGRAPHIC DESTINATIONS

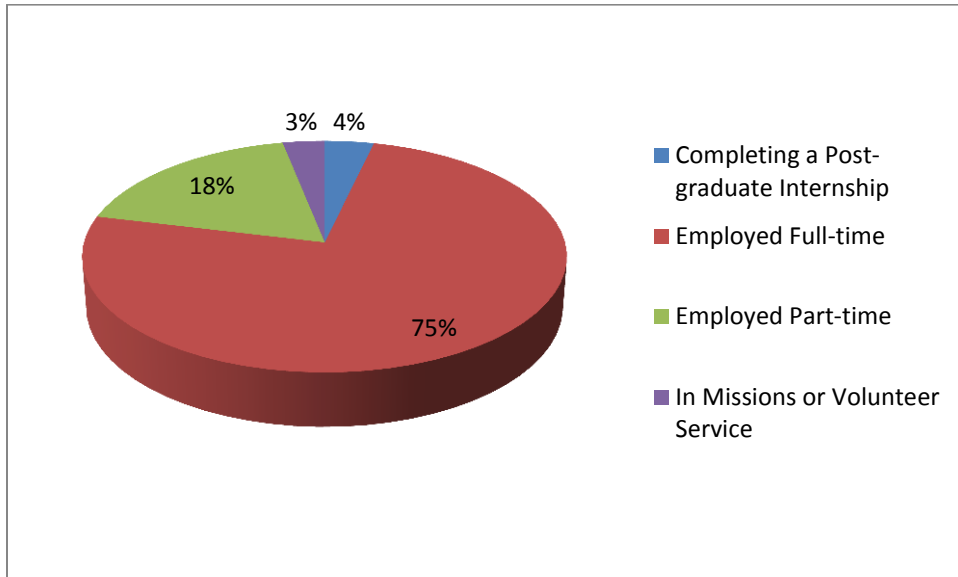

The geographic destinations for the Class of 2013 spanned the United States as well as international locations. In the U.S., the Northeast continues to be the strongest draw for Messiah College graduates, constituting approximately 84% of the graduates. International destinations totaled 5% and include the Dominican Republic, Uruguay, Ghana, China, Poland, Burkina Faso, Singapore, and the Philippines.

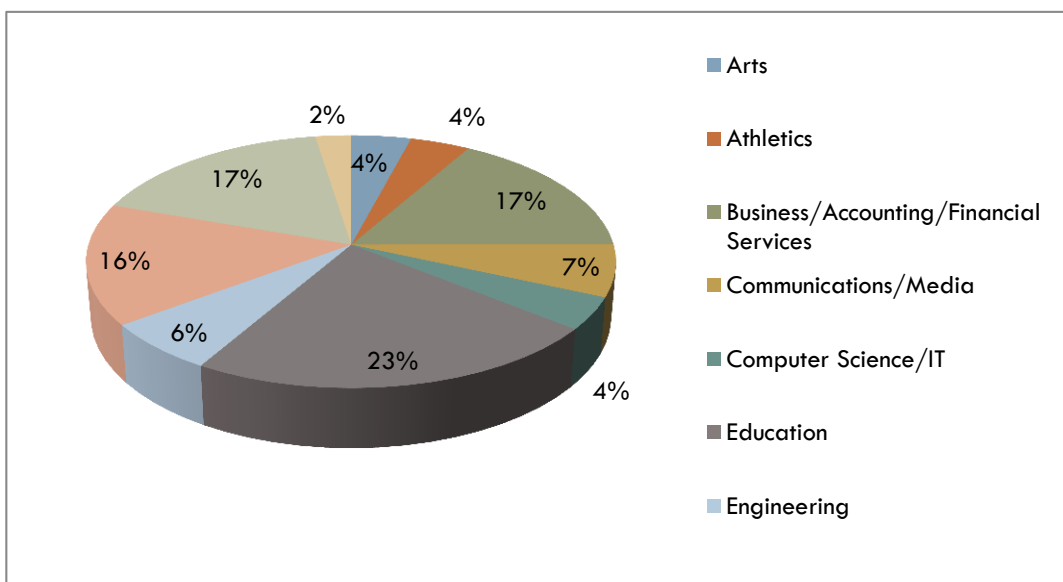

The Northeast continues to be the strongest draw for Messiah College graduates, constituting approximately 84% of the responding graduates.

EMPLOYMENT INFORMATION

81% of the Class of 2013 survey respondents reported employment as their primary status following graduation. Graduates who are in full-time work, part-time work, post-graduate internships, and missions/volunteer work are considered as employed for the purposes of the survey. The chart below shows the breakdown of the various types of employment for the Class of 2013. The majority of those employed are in full-time positions. 75% of those employed indicated that they were in a position which required a bachelor's degree.

The following graph displays industries represented by employed Messiah College graduates.
