

## **Graham Packaging Company: Capital Engineering Summer Co-Op 2013**

**Title:** Capital Project Management (Global Development) Co-Op/Intern

**Duration:** 3-6 Months

**Location:** Graham Packaging: Technology Center - York, Pa

**Reports To:** Kevin Kline, CAD Engineer / Assigned Project Manager

**Positions to fill:** 1-3

**Description:** Successful candidate shall be responsible for, but not limited to, the following duties and tasks:

1. Project Development
  - a. Develop an understanding of plastic bottle mass manufacturing procedures, techniques, and equipment.
  - b. Analyze existing data to design various plastic bottle mass production line layouts.
  - c. Field visits to collect data for new and upcoming projects.
2. Engineering Support
  - a. Assist in the design, layout, and implementation of new production lines using CAD software (AutoCAD experience a plus).
  - b. Assist Global Budget Team in formatting project costs from project conception thru project implementation using Microsoft Excel.
3. Project Management
  - a. Field visits to monitor and verify installation of new production lines.
  - b. Ensure project timelines and deadlines are met through interaction with Project and Plant Managers, Contractors, and Vendors.
  - c. Assist Project Manager in purchasing equipment.
  - d. Ensure as-built conditions accurately conform to design layouts.
  - e. Maintain and build equipment database using in-house database software.
4. Various duties and responsibilities to ensure successful project completion.

**Requirements:** Microsoft Office, Computer Aided Drafting (AutoCAD preferred), Flexible schedule for travel, Driver's License and ability to rent a car.

**Travel:** 20-50% pending current workload (typically no more than 5 days in the field at a time per trip, travel paid by Graham Packaging Company).

**Company Summary:** Graham Packaging Company, L.P. is a worldwide leader in the design, manufacture and sale of custom blow-molded rigid plastic containers. We deliver customized solutions that meet our customers' needs for new designs, product performance requirements, cost management and sustainability. We work with the world's largest consumer brands, helping them to shape and define the identity of their products. For them, custom packaging design is a critical component in their branding and their marketing efforts to differentiate their products to the consumers. Graham employs a team of over 8,200 individuals, with 97 plants in 15 countries across North America, Europe, South America and Asia.
