

STAT 269 – Introductory Statistics

Instructor: Samuel P. Wilcock, Ph.D.

Office: F323

Phone: x7092

E-mail: SWilcock@Messiah.edu

Education

B.A., Messiah College, Major: Mathematics (minor: Statistics)

M.S., Virginia Polytechnic Institute and State University, Major: Statistics

Ph.D., Virginia Polytechnic Institute and State University, Major: Statistics

Meeting Times: 1:50 - 2:50 Daily

Office Hours: See course website.

Web Resources: http://home.Messiah.edu/~SWilcock/STAT269_resources/

This site contains many additional resources, including details about course policies, and copies of all of the handouts that you will receive this semester. Many of these handouts will be passed out in class, but if you lose your copy, miss class, or would simply like a second copy, you may feel free to print it off from the course site. You are **required** to read the course policies, so that you know what to expect from me, and what I expect from you. Continuation in this course is your testimony that you have done this and agree to these policies.

Text: Ron Larson and Betsy Farber, *Elementary Statistics*, Fourth Edition

This text can serve as a valuable resource for you throughout this course, and beyond. There will be no required readings, but I strongly suggest you read through the sections in the book as we go to insure that you are understanding what I cover in class. Also, once you are out of the course, the text, along with the handouts that are given, and the rest of your notes, can serve as a reference for you to look back to when you come across statistics on the job, or in your daily life.
