Plan of Study for Graduate Program in Counseling

NOTE: It should be noted that courses do fill up and sometimes the rotation of the courses in the program might change. When this happens, students will need to be flexible and work with their advisors to modify their plans to accomplish their academic goals. The course rotation is provided to help students plan and we fully intend to offer the published sections when advertised. However, just because a course is listed on the rotation at a certain time, we cannot guarantee that all students will be able to sign up for every class when it is offered.

Name: ____________________  Track: ____________________  Advisor: ____________________
Term Started (term/year): ____________  Expected Graduation (term/year): ____________
