AUTISM SPECTRUM DISORDERS (EDME 522-01)
EARLY FALL / 2015

Professor: Nancy J. Patrick, Ph.D.
Email: npatrick@messiah.edu

Course Dates: Aug. 23 to Oct.17, 2015
Phone: 717-769-1800 ext. 7239
717-497-9846 (cell)

Office hours: Sunday evenings or by appointment

Faculty Availability: via forum, chat room, email, text, phone, or Skype (nancyjpatrick)

Contact: I will be checking in on the course several times per day during the work week (unless otherwise notified). I am also very willing and happy to communicate individually with students as needed. Please contact me via email only if your question is of a personal nature. If you have questions about the course (assignments, dates, expectations, etc.) please post them on the General Course Forum so that everyone can benefit from the answers. If you contact me individually, my commitment is to respond to you in 24 hours or less on weekdays. If you have an urgent question on the weekend, you may contact me on my cell phone (717) 497-9846.

Faculty Expectations of Students:
Orientation: At the beginning of the course the student is expected to read the entire course syllabus, familiarize him or herself with the course calendar and practice navigating the content in each of the Canvas tabs used in this course.

Instructional Time: Students will spend approximately 5.25 hours (on average) per week engaging in tasks that are classified as instructional (roughly equivalent to classroom seat time). Instructional tasks include watching required videos, watching and reading PowerPoints, reading class notes provided by the instructor, completing exams, reviewing instruction related to field experience, as well as reading posts and submitting posts online in the discussion forums.

Non-Instructional Time: Student will spend approximately 6 hours (on average) per week engaging in tasks that are classified as non-instructional (roughly equivalent to graduate level, out of class work). Non-instructional tasks include reading the course text(s) and articles, completing assignments, preparing forum discussion responses, field placement hours and conducting research.

Announcements: Please make sure that you read the announcements every time you log in to the course. These will be updated regularly with important course information. Any time I post an announcement I will also send an email notification for the announcement. I will also post a short video announcement at the beginning of each week to provide an overview of the requirements for that particular week.

Asynchronous/Synchronous learning: This course will require primarily asynchronous learning, which means that students can work independently at their own pace within certain schedule constraints/limitations. At least two synchronous learning experiences (via Adobe Connect) will
be scheduled during this eight week course (see course schedule). Students will be required to log on simultaneously so that the class can discuss the topic together. If you are unable to attend the session it will be taped for your viewing at another time.

I have also scheduled online “office hours” for Sunday evenings. I am happy to talk on the phone, via the chat tool in Canvas, on Skype or in whatever way may be most convenient.

Course Description: This course focuses on effective educational practices designed to meet the needs of children and early adolescents with autism spectrum disorders in the continuum of alternative educational settings. Specific emphasis will be placed on understanding the characteristics and impact of these disorders on learning, assessment for the purpose of designing instruction and monitoring progress, curriculum selection and development and implementation of evidence-based practices and strategies found to be effective in supporting students with autism spectrum disorders.

Graduate Program in Education Mapped Curriculum
The fundamental educational task of Messiah College is to promote successful and meaningful learning and to help students attain the College-Wide Graduate Educational Objectives (CWGEOs), the Graduate Program in Education Program Objectives, and the objectives for each course in a student’s program.

The college and program objectives measured through an assessment plan that allows the graduate faculty and college administrators to routinely evaluate and maintain the Graduate Program in Education’s effectiveness in meeting the required objectives. Student work samples are collected in accordance with the assessment plan and are anonymously evaluated using the assessment plan rubrics. You are invited and encouraged to read the objectives and assessment plan in the linked attachments.

Course Objectives:
1. Identify the most prevalent patterns of behavior in children and early adolescents with autism spectrum disorders.
   a. Describe the defining characteristics of and diagnostic criteria for the various Autism Spectrum Disorders (ASD’s) and other associated disorders, including common manifestations within communication and verbal behavior, social skills and social adaptation, repetitive and stereotypical behaviors, and patterns of responses to various sensory stimuli. (PDE ASD Competency I-A)
   b. Discuss key theoretical, actuarial and scientific hypothesis regarding the etiology of ASD. (PDE ASD Competency I-B)
   c. Explain the relevant history of the changing definitions, interventions, and cultural attitudes regarding ASD and their relationship to educational services. (PDE ASD Competency I-C)
2. Describe the continuum of alternative placements and services that are available to learners with autism spectrum disorders;
3. Describe and identify the threats to learning that can occur for learners with autism spectrum disorders;
4. Select and administer appropriate assessment tools to establish present levels of functioning for children and early adolescents in the areas of social, behavioral, language, and cognitive, motor and sensory development.
   a. Identify and describe various diagnostic instruments and procedures, including their strengths and limitations. (PDE ASD Competency I-D)
5. Use assessment data to prepare Individualized Education Program (IEP’s), design effective of instruction and monitor progress for children and early adolescents with autism spectrum disorders.

6. Describe and apply the evidence-based practices for educating children with autism spectrum disorders including applied behavior analysis; structured teaching and discrete trail.
   a. Discuss characteristics, strengths, and limitations of various models of intervention commonly implemented for students with ASD. (PDE ASD Competency III-A)
   b. Evaluate the evidence base for educational interventions for students with ASD. (PDE ASD Competency III-B)

7. Select and apply appropriate positive support strategies and interventions that are most likely to support learning.
   a. Designing instructional programs with attentiveness to legal mandates and family considerations. (PDE ASD Competency IV-F)

8. Collaborate and consult with parents and other team members to maximize student progress.

Textbook and Other Course Materials:

Required:

Recommended:

Additional Readings (access provided through Canvas):

**Course Requirements:**

Projects:

**ASD Observation Assignment (Course Objectives 1 and 2)**
You will create an observation chart, observe one young child, one school-aged children and one adolescent on You tube and then record your observations on the chart for each child. You will then write a narrative report on one of the children. The details of this assignment are available in Canvas under the ASD Observation Assignment Part I and Part II in the Week #1 and Week #2 Modules. The assignment is worth a total of 100 points.

**Assessment Assignment (Course Objectives 4,5)**
For this assignment you are going to get really familiar with the Mental Measurements yearbook. You will select two assessment tools and research the merits of each tool using the MMY and other resources. The details for this assignment are posted in the Week #5 Module. The assignment is worth 50 points.

**Structured Teaching with Visuals (Objective 7)**
You will design four visual schedules using objects, Boardmaker, and Word. You will also adapt one child’s book, one social story and one lesson using Boardmaker. The details for the assignment are listed in the Week #7 Module. The assignment is worth 50 points.

The Boardmaker program will be provided to you free under the Semesterware program at Mayer-Johnson Boardmaker. The program is good for the semester so you will have access to it in this course and will be able to practice with it until December.

The directions for uploading Boardmaker are in Appendix B of the syllabus along with the access keys for PCs and Macs. The process is different depending on whether you have a PC or Mac.

**Exams:**

**Midterm Exam (Course Objectives 1,2,3,4,& 5)**
The midterm exam will consist of questions in multiple choice, T/F, and short answer, fill-in-the blank, and essay format. The exam will cover material read or discussed in the course. The midterm exam is worth 100 points.

**Final Exam (Course Objectives 6, 7,& 8)**
The final exam will consist of questions in multiple choice, T/F, and short answer, fill-in-the blank, and essay format. The final exam will cover material read or discussed since the midterm and will include some comprehension questions to evaluate your mastery of the content. The final exam is worth 100 points.

Discussion Posts:

Class discussions will take place under the Discussion tab on Canvas. Typically, students find this to be one of the most engaging parts of the course as they have opportunity to read and respond to the ideas of others in the class.

One open-ended question, also called a prompt, will be presented in six out of the eight weeks and students will be expected to post one original response to the question by Wednesday of the week and a follow-up response to two other student postings by 11:55 PM on Sunday of that same week.

Original Responses: (Course Objectives 1-8)
The initial prompt will be provided by the instructor and all students must post a 250-300 word response to each prompt. All responses are to include references to the reading that must be cited in APA Style. http://www.apastyle.org/learn/tutorials/basics-tutorial.aspx.

Students can either type directly into the textbox on the Discussion page or they can type in MS Word and then paste their responses into the textbox.

Written Responses to Other Students: (Course Objectives 1-8)
You are to read the original postings of every other student in the course. You are only required to write a response to two other students. The purpose for the written response is to facilitate further conversation that contributes to a better understanding of the course materials.

Grading for Discussion Posts:

Original Posts are worth 25 points each will be based on your ability to write well formulated and organized responses that demonstrate good comprehension, analysis and application of the reading material to the open-ended prompts.

It is critical that you correctly incorporate course concepts and vocabulary in your responses and that you make connections between the course materials and relevant professional experiences.

Grading will be based upon the following: comprehension, analysis and application of readings to correctly answer the question (15 points), use of at least 2 resources- at least one of these must be an additional resource sought by the student (5 points), and APA style (5 points).

Response Posts are worth 10 points each and will be graded based upon your focus on course content, making connections between what that student has written and the readings and/or your own professional experiences, and/or ask probing questions to solicit more information and reflection, and/or introduce relevant outside sources that enhance learning. Responses will be graded based upon these criteria.
Grading will be based upon the following: contributing to better understand of course materials and facilitating conversation (5 points) and at least one source reported in APA style (5 points).

Field Experience:

**Description of Setting:**
The field experience in this course consists of 20 hours of observation and assisting in a setting where individuals with autism spectrum disorders are present. This field experience could be called a getting to know you experience where people just spend time together learning about each.

If you are seeking the **ASD Endorsement** offered by the Pennsylvania Department of Education you are required to complete your 20 hours in a school setting and with an age group consistent with your current teaching certification.

If you are seeking the **Messiah College ASD Certificate** you are required to complete the same 20 hours of field placement; however, these hours may be completed in a ministry, community program, after school program, private school, or public school setting.

**Setting up the Field Placement:**
1. If you are already employed by a public school, it may be possible for you to complete this field experience in your own school or district, if you so desire. You may make initial inquiries within your building or district to find out if this is feasible. If responses are positive, email information to Amanda Sigel, asigel@messiah.edu Field Placement Coordinator. Amanda will contact the district on your behalf and make the formal request.

2. If you do not work in a public school but need a school setting because you are earning the PDE ASD Endorsement email Amanda Sigel at asigel@messiah.edu so that she can begin setting up a placement for you. You should contact Amanda as early as possible to begin the dialogue about your field placement. She will need time to make the appropriate arrangements.

3. If you are earning the Messiah College ASD Certification and not the PDE ASD Endorsement then you may complete your hours in any setting where an individual or group of individuals who have disclosed that they have an ASD congregate. This could be in your own home, at work, with a neighbor, at church, at a community group, or with friends.

You must have your placement set up and approved through the field placement office by Aug 31, to begin your field experience the week of Sept. 3.

Course Assignments connected to Field Experience:

- Field Placement Reflections (7 reflections 10 points each)
- Field Placement Interview (10 points)
Clearances
All students enrolled in the Graduate Program in Education who will have direct contact with children (defined as any individual under the age of 18) during any part of their graduate program coursework must comply with existing federal, state, and local statutes pertaining to background clearances and mandated communicable disease testing. If students are working with adults, any local clearances required for the particular work in which students are engaged must be obtained. In Pennsylvania, students working with children or with adults in settings where clearances are required must supply documentation of a cleared Criminal Record, Child Abuse Record, and FBI fingerprint report, as well as negative Tuberculosis test (TB) results. Students working with children or adults living in states other than Pennsylvania must supply all applicable mandatory clearances for the state and locality in which they reside. For students working with children or adults outside of the United States, a summary statement of local requirements and a statement attesting to compliance with local regulations must be filed. All required documentation must be submitted to the GPE administrative assistant apatton@messiah.edu prior to registering for any course that involves contact with children or with adult programs that require background clearances.

Failure to provide the required clearances will negatively impact progress through the program.

Field Placement Reflections
A reflection is required for every field placement visit. If the dedicated time for the field experience is within your work day that counts as a visit. The reflections are to be typed, double-spaced, 12 pt. font and one to two pages in length. The entries will be graded according to the scope and depth of the response rather than the specific content.

It is important that in your reflection you go beyond a description of the scene. You are to briefly describe the scene and then write a reflection that addresses the ABC’s list below.

A → Affect, attitude, emotions and feelings.

Answers the questions:
1. How did you feel before the experience?
2. How did you feel during the experience?
3. How did you feel after the experience?
4. How do you feel about what you have learned?
5. Have your feelings and/or attitudes changed or remain the same?
6. Have the feelings and/or attitudes of others changed or remain the same?

B → Behavior- past, current and future.

Answers the questions:
1. How did your thoughts and feelings influence your behavior?
2. How did the behaviors of others influence your behavior?
3. Did your behavior changed or remained the same during the experience?

C → Cognitive- connections, thoughts, and overt responses to the experience.

Answer the questions:
1. What did you think?
2. What did you learn?
3. How did you connect new learning to past learning?
4. How did you connect new learning to other course material?
5. Have your thoughts changed or remained the same?
6. Are you aware of different perspectives?
7. What are your thoughts on those perspectives?

Sample reflection:

Field Placement Interview:
Identify someone in your field placement that has some experience with children, teens or adults with autism spectrum disorders. Ask that person if they will agree to be interviewed by you for this course.

This is an open-ended assignment. You may select the topic and questions you want to ask this individual based on what you want to know. If you are concerned about getting too personal you can always add a disclaimer that says something like this, “if I ask any questions that you do not want to answer just tell me”.

You are to design the interview questions before the interview. Be sure to select a half-dozen open ended questions that will allow the person you interview to share and elaborate on the topics that are of interest to you.

Try to avoid questions that can be answered with a “yes” or “no”. Start your questions with describe, why, how, what have you noticed? What is your favorite or least favorite? When you were in a certain situation what did you do? How did you handle the situation? Have you ever seen or know this? Etc.

You are to type your questions and the interview answers into a word document, write a paragraph stating the reason for selecting the specific topic or topics and a statement that tells us whether or not the interview answered your questions satisfactorily, if not then what else might you do to get answers to your questions.

You are to upload your interview and questions for your Week #7 Original Post. It is due by Wed. 10/8. Every student will read two other posts and respond to the posts according to the response post criteria we are using all semester. The assignment is worth 25 points for the Original Post and 20 points for responses.

Total Points | 700

Course Policies:

Extra Credit – No extra credit options will be provided.

Late Assignments – Assignments are expected to be submitted on time. If you need to submit an assignment late, please notify the instructor to make arrangements. A 5% deduction in the points available for each assignment will occur for each day an assignment is late (unexcused). No credit will be given for unexcused late posts on the forum. Failure to complete any assignment by the end of the course could result in the student failing the whole course.

Missed Exams – Exams will be available online for a period of time. If you are not able to complete the exam within that window of time, please notify the instructor to make arrangements.

Returned Assignments – Assignments are to be submitted via the Assignments tool in Canvas. Students will receive written feedback and grades in Canvas using the Speedgrader. Assignments will be returned with feedback within one week of the submission date.

Written Work:
It is important that your written work meet graduate level standards. Papers submitted digitally should meet the same criteria that hard copy papers must meet. Any paper you submit should look like you would want it to look if it were printed out. Please follow these guidelines:

- A typical page of writing is 12 pt font, double-spaced, with one-inch margins. Only a full page of writing counts as a page.
- Use APA style for citations and referencing. This is a useful resource on APA style: [http://owl.english.purdue.edu/owl/section/2/10/](http://owl.english.purdue.edu/owl/section/2/10/)
- All papers must have your name and the name of the assignment at the top, or on a title page.
- All papers should have titles.
- Longer papers normally require headings, following APA guidelines.
- Grammar, spelling and punctuation are very important. Edit your paper well.
- Lack of clarity in writing, lack of coherence in organization or reasoning, and redundancy which extends the paper beyond its substance will all result in a lower grade. Creating and following an outline when you write can help you avoid some of these problems.

All assignments will be graded Speedgrader using rubrics that are available for you to review with every assignment.

Program Policies:
Academic Integrity
The Academic Integrity Policy for Graduate Students is found in the graduate student handbook. Primary responsibility for knowledge of and compliance with this policy rests with the student.

Americans with Disabilities Act
Any student whose disability falls within ADA guidelines should inform the instructor at the beginning of the semester of any special accommodations or equipment needs necessary to complete the requirements for this course. Students must register documentation with the Office of Disability Services. For an overview of the services provided by Disability Services check out the website http://www.messiah.edu/offices/disability/index.html or contact Amy Slody, Director of Disability Services at DisabilityServices@messiah.edu or by phone at (717) 796-5382.

Library and Librarian Assistance
The Library is an obvious source of information for many of your class projects. Currently, Beth Mark is the specific library liaison assigned to the education discipline. Although any librarian is trained and prepared to assist you, Beth works specifically with education and is most familiar with the resources and databases that relate to this field. Do not hesitate to contact her if you are having trouble locating specific sources for your assignments as she is more than willing to help you. For her specific work schedule, contact her directly at BMark@messiah.edu or by calling (717)796-1800, ext. 3590. Click here for resources and databases that relate to this field

Writing Center
The Writing Center is available to any graduate student who has a desire to improve his/her writing. The role of the center is to provide feedback (not editing) on written work. Feedback alerts you to the kinds of errors you are making, lets you know when something is not clear, and suggests that you have not fully supported an argument. Feedback does NOT correct your grammatical errors, rewrite your sentences, or provide you with the specific points to support your argument. Ultimately, it is your responsibility to find and use the resources you need to improve your writing but connecting with our Writing Center, either online or face-to-face, is a good place to start.

Statement of Copyright Protection
“The materials in this Messiah College course are only for the use of students enrolled in this course for purposes associated with this course and may not be further disseminated.”

Statement of Confidentiality
“Students may be asked to post written work and to engage in written dialog with other class members within an LMS. The student should be aware that although confidentiality within the course environment is encouraged, it is possible that users in and outside the course may have access to course content.”

Graduate Program in Education Listserv
We invite you to join our listserv-- it is a trusted tool that is dedicated to you, as a means to receive professional information about the program at Messiah, conferences, job openings, as well as an avenue for you to post any questions you may have for your peers and faculty. They, in turn, will respond to your questions via the listserv.

The listserv is also available as an avenue to sell your books and network with others.
To assure ease and trust, we are asking everyone to comply with some simple rules. Use good Netiquette. Also be respectful and considerate of one another. We can all benefit by having a secure, trustworthy site to share ideas, ask questions, and make announcements related to the graduate program in education and our professions.

We encourage you to join, and get in on the conversation. The GRADEDME list is configured so that you can subscribe/unsubscribe at will.

1. Use the following address to subscribe to the list:
   listserv.messiah.edu/scripts/wa.exe?SUBED1=GRADEDME
2. You will be asked to supply your Messiah email and password
3. Then you will come to a screen like this. Select “subscribe to GRADEDME” by clicking on the box.
4. When you receive a confirmation email, click on the link in that confirmation email to join the listserve. And then you will be all set!

Hardware and Software Recommendations
Student technology recommendations are found on the Information Technology Services website. These guidelines have been put in place to best equip you to have an optimal technological experience in our online programs.

Minimum Computer Skills Requirements
Students must possess basic computer skills and have regular access to a computer with the Minimum System Requirements in order to participate fully. Specifically, students who enroll in an online course must have basic computer skills including:
- A working knowledge of word processing
- Navigate the internet using different search engines
- Email (Compose, Attach, Send, Read)
- Utilize Microsoft Office programs (Word & PowerPoint)
- Copy and Paste

Technical Support for Students
Technological support is available to all students during the days and times listed on the Information Technology Services homepage. Students also have access to technical support
(i.e. tutorials, help functions, etc.) through the College’s portal, MCSquare, and through the College’s Learning Management System.

Appendix A

Movies with Themes Related to Autism Spectrum Disorders

1. **Rain Man.** This movie took Academy honors for best director, screenplay, picture and actor (Dustin Hoffman) in 1988. It’s a touching story about two brothers, an autistic one played by Dustin Hoffman who inherits 3 million dollars from their father, and a car dealer played by Tom Cruise who’s been estranged from his family. The two brothers go on a cross-country journey after their father’s death. **On Netflix.**

2. **Dad’s in Heaven with Nixon.** Documentary filmmaker Tom Murray chronicles the struggle of his mother to heal his brother’s brain damage and autism, while delving into his family’s sad history of mental illness and creative brilliance. **On Netflix.**

3. **Mozart & The Whale.** Josh Hartnett and Radha Mitchell star in this romance between a boy and a girl who both have Asperger’s Syndrome.

4. **What’s Eating Gilbert Grape.** Johnny Depp, Leonardo DiCaprio, Juliette Lewis, and Mary Steenburgen star in this 1993 movie about family loyalty, sadness and the power of love. **On Netflix.**

5. **The Asperger’s Difference.** This 30-minute documentary was produced for teens and young adults with High-Functioning Autism and Asperger Syndrome and those who interact and work with them. The film features the personal stories, challenges and triumphs of three students — middle-school, high-school and college-age. Also included is a discussion guide with a list of resources to assist young people with Asperger’s in building self-awareness, self-esteem and self-advocacy skills.

6. **Killer Diller.** Lucas Black, Fred Willard, William Lee Scott, and Ashley Johnson star in this 2004 film based on Clyde Edgerton’s highly acclaimed novel. When guitar-playing car thief Wesley Benfield meets Vernon, an autistic savant with rocking piano skills, they transform themselves into the Killer Diller Blues Band.

7. **A Mile in His Shoes.** An inspiring story about a loving family, a special boy with an amazing gift, and the coach who believed in him. Dean Cain and Luke Schroder star in this heartwarming story about Mickey Tussler, a sheltered farm boy with Aspergers Syndrome and a killer fast-ball who’s recruited by minor league manager “Murph” to play for his struggling baseball team. **On Netflix.**

8. **The Boy Who Could Fly.** Jay Underwood, Lucy Deakins, and Fred Savage star in this 1986 movie about an autistic teenager who goes to live with his uncle after both his parents die.
9. **Mercury Rising.** Bruce Willis, Alec Baldwin, and Miko Hughes star in this movie about a 9-year-old boy with autism who has a knack for breaking codes. He becomes a target of assassins after he breaks a top government code.

10. **A Mother’s Courage: Talking Back to Autism.** This documentary by Fridrik Thor Fridriksson tells the story of a mother who has done everything in her power to help her son. Along they way, she meets other families and hears their unique stories about how they too have been touched by autism.

11. **David’s Mother.** Kirstie Alley, Sam Waterston, Stockard Channing, and Chris Sarandon star in this 1994 movie about the mother of an autistic boy. When her devotion drives away her husband and daughter, she’s approached by a social worker ( Phylicia Rashad), who suggests placing the child in a special school.

12. **Autism: The Musical.** Following five L.A. children over the course of six months, director Tricia Regan captures the struggles and triumphs of their family lives and observes how this musical production gives the performers a comfort zone in which they can explore their creative sides.

13. **Fly Away.** This powerful film directed by Emmy Award winner Janet Grillo (“Autism: The Musical”) follows the story of Jeanne and her autistic teenage daughter, Mandy. As the pressures of work and her child’s needs increase, she must decide whether or not to enroll Mandy in a therapeutic residential facility. Greg Germann, Ashley Rickards, and Beth Broderick star. **On Netflix.**

15. **The Horse Boy.** This movie chronicles the journey of the Isaacson family as they travel through Mongolia in search of a mysterious shaman who they believe can heal their autistic son. Delving into the world of autism, horses, shamanism, and Mongolia, it tells the story of a family that will go to the ends of the earth to find a way into their son’s life. Directed by Michel Orion Scott, this movie stars Rupert Isaacson and Temple Grandin. **On Netflix.**

16. **Loving Lampposts.** What would you call a 4-year-old who caresses all the lampposts in the park? Quirky? Unusual? Sick? Such labels are at the center of the debate about autism: is it a disease or a different way of being or both? “Loving Lampposts” explores the debate with parents, doctors, therapists, and autistic people. **On Netflix.**

17. **The Red Kite Project.** This documentary follows Jacqueline Russell, Artistic Director of Chicago Children’s Theater, as she sets out to create the first interactive, multi-sensory theatrical performance installation for children with autism. Having spent 13 years volunteering in classrooms of autistic children, Russell’s mission is to assemble a team of artists, educators and parents to create a program that brings joy, excitement and education to autistic children.
18. Temple Grandin. Directed by Mick Jackson and starring Claire Danes and Julia Ormond, this HBO movie paints a picture of a young woman’s perseverance and determination while struggling with the isolating challenges of autism at a time when it was still quite unknown. The film chronicles Temple’s early diagnosis; her turbulent growth and development during her school years; the enduring support she received from her mother, aunt and her science teacher; and her emergence as a woman with an innate sensitivity and understanding of animal behavior.

19. Snow Cake. This 2006 drama focuses on the friendship between a high-functioning autistic woman and a man who is traumatized after a fatal car accident. Directed by Marc Evans, it stars Alan Rickman, Sigourney Weaver, Carrie-Anne Moss, and Emily Hampshire.

20. Adam. Directed by Max Mayer and starring Hugh Dancy, Rose Byrne, Peter Gallagher and Amy Irving, this 2009 movie follows the story of a lonely man with Asperger’s Syndrome who develops a relationship with his upstairs neighbor.

21. Molly. A bachelor becomes the unwilling guardian of his autistic sister; then an experimental treatment works a dramatic change in her brain and his attitude. Directed by John Duigan, this movie stars Elisabeth Shue, Aaron Eckhart, Jill Hennessy and Thomas Jane.

22. I Am Sam. Directed by Jessie Nelson and starring Sean Penn, Michelle Pfeiffer, Dakota Fanning and Dianne Wiest, this movie follows an autistic man who fights for custody of his 7-year-old daughter, and in the process teaches his cold-hearted lawyer the value of love and family.

23. The Other Sister. Directed by Garry Marshall and starring Juliette Lewis, Diane Keaton, Giovanni Ribisi and Tom Skerritt, this 1999 movie follows an autistic girl who proves herself to be every bit as capable as her “perfect” sister when she moves into an apartment and begins going to college.

24. Extremely Loud and Incredibly Close. Thomas Horn plays a nine-year-old amateur inventor who searches New York City for the lock that matches a mysterious key left behind by his father, who died in the World Trade Center on September 11, 2001. Directed by Stephen Daldry, Tom Hanks, Sandra Bullock and Max von Sydow also star.

25. Touch of Truth. A battle between a mother and a psychologist for the heart and mind of an autistic boy turns into a desperate fight for justice in this powerfully compelling drama, based on a true story. Michael Switzer directed this 1994 TV movie which stars Patty Duke, Melissa Gilbert, Bradley Pierce, and Markus Flanagan.
