

8th Annual Physics, Chemistry & Medicine

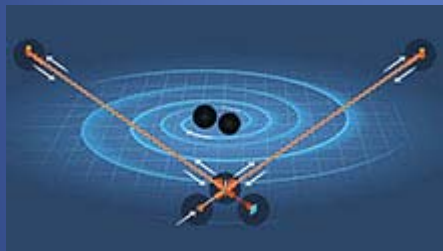

Nobel Prize Seminar

Please join us for the 8th Annual Nobel Prizes in Physics, Chemistry and Medicine Seminar, where cutting edge science will be presented in a way everybody can understand

Tuesday, November 28th at 5:15 pm

Alexander Auditorium - Frey 110

Refreshments will be served beginning at 5pm

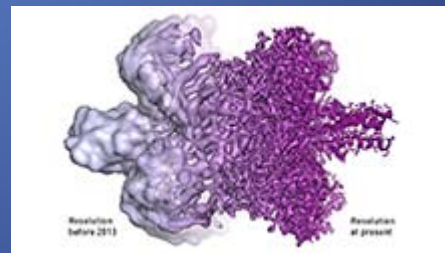

Physics Prize - Presented by Dr. Matthew Farrar

The Nobel Prize in Physics 2017 was divided, one half awarded to Rainer Weiss, the other half jointly to Barry C. Barish and Kip S. Thorne "for decisive contributions to the LIGO detector and the observation of gravitational waves".

Chemistry Prize - Presented by Dr. Jesse Kleingardner

The Nobel Prize in Chemistry 2017 was awarded to Jacques Dubochet, Joachim Frank and Richard Henderson "for developing cryo-electron microscopy for the high-resolution structure determination of biomolecules in solution".

Medicine Prize - Presented by Dr. Jennifer Ness-Myers

The Nobel Prize in Physiology or Medicine 2017 was awarded to Jeffrey C. Hall, Michael Rosbash and Michael W. Young "for their discoveries of molecular mechanisms controlling the circadian rhythm".

Seminar sponsored by the Departments of Chemistry and Biochemistry, Biological Sciences, and Mathematics, Physics and Statistics
