

# Helping Students Grow

By Digging Into Your Assessment Data

**Did we Meet the Target?**

What are the strengths and weaknesses in the students' performance?

Is the target set too high or too low?

Does the assignment align well with the program learning objective?

Do we need to make revisions to the assignment? Are other campus resources available to help students in areas of struggle?

How can we shape instruction to help improve students' performance?

Are we providing adequate instruction on the learning objective?

Are we providing adequate opportunities for students to develop the learning stated in the objective, or are changes needed?

Are certain groups of students struggling? Can we figure out why?

Are there variations in student performance by sections?
