\*Full-Time Equivalency for Graduate Students was calculated by taking the total number of credits being taken by graduate students divided by 9 (because graduate students are considered full-time if they are taking 9 credits). The calculation was done this way because graduate students pay per credit (compared to full-time undergraduate students who pay one tuition cost up to 18 credits). In contrast, the undergraduate FTE is calculated by taking the number of full-time students plus 1/3 of part-time students. Note: The FTE for graduate students this Spring is 9 higher than the total enrollment because some graduate students have course loads higher than 9 credits (full-time equivalency for graduate students).
