## **Sequencing of QuEST Requirements**

The white cells indicate the time when each of the general education requirements should be taken. When two or more years are indicated, the requirement may appropriately be completed during any of the suggested years.

\* Case by case exceptions for appropriate equivalent courses made in light of the theological foundation of the transferring college.

\*\* Student-athletes must complete the following requirements during the semester in which they are enrolled in PHED 102, in addition to participation in their intercollegiate sport:

- Completion of initial wellness assessment
- Completion of written assignment, discussing wellness assessment

- Attendance at two wellness seminars, including brief written response after each seminar

^ Students are strongly encouraged to take their Cross Cultural Studies course during their second or third years. Should it become necessary to take during a student's senior year, it should not be planned beyond J-Term.
