## Guidelines for Mathematical Science Courses

### Human Development and Family Science majors:

All students in the Human Development and Family Science major must take STAT 269, which is usually taken in the fall of the sophomore year. Students who have a weak background in algebra should consider taking MATH 101 or MATH 102 in their first year in preparation for STAT 269.

### Family and Consumer Sciences Education Majors:

All students in this major must take two mathematical science courses: CIS 171 (Problem Solving with Computers) and STAT 269 (Introductory Statistics) by the conclusion of the sophomore year.

## 8-Semester Plan

### Family and Consumer Sciences Education with K-12 Teaching Certification (B.S) for students with an odd year start

\*QuEST requirement

+ Students must complete 6 credits of math and 6 credits of English before the completion of the second academic year. The 6 credits of math are met through STAT 269 and CIS 171. The six credits of English are completed via IDFY 101 and a literature course, from approved list. Writing intensive courses are IDFY 101 and IDCR 151.

\*\*All courses marked with this symbol must be taken concurrently as indicated.

'Requires admission into the Teacher Education Program 3.0 grade point average is required for admission into the Teaching Program (fall semester of the students' junior year) and also for admission to the Professional Semester (spring semester of the students' senior year) "Requires admission to the Professional Semester (students may not register for additional courses)

^HDFS 340 Ethics and Families fulfills the QuEST Ethics requirement; students may select other courses meeting QuEST Ethics.
