Teachers Prepared

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

We have integrated several of these assurances across the curriculum to ensure that our students receive this instruction multiple times in a developmental approach to their learning and in authentic contexts related to core academic areas. We meet with and regularly survey local school district administrators and teachers to gauge the needs of schools and incorporate these into our courses and field experiences. All of our student teachers receive training in the high impact strategies used in the local region.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

2. Describe your goal.

Expected 15, prepared 13 special education teachers

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

PDE's recent directive that all students pursuing special education (including PK-4/Spec Ed dual majors) must student teach in special education is having an adverse affect. Students choose to minor in special ed rather than prepare for the special ed cert, preferring to student teach in regular ed. We will advocate for a return to a choice of special ed or regular ed for student teaching for PK4/Spec Ed majors whose programs will still include an 80 hour special education internship.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

Prepare 14 special education teachers

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

Prepare 8 special education teachers

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ([§205\(a\)\(1\)\(B\)](#))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Faculty model and teach use of content-specific technology. Our classrooms are equipped with SmartBoards, LCD projectors, and computer/AV stations that are used by faculty for instruction and by students in mini-lessons and presentations. We use an online learning management system which provides our students with experience in reading and submitting assignments electronically, taking quizzes online, electronic grading, electronic gradebooks, and online discussion forums. In our assessment course, students review test data collected electronically to make determinations about student learning and adjustments to teaching. Students also create their own learning module in the LMS to teach their peers about a particular instructional technology. In the literacy course, students use computer applications to graphically represent and interpret student achievement data on reading assessments. Students also use electronic databases throughout their coursework to do library research. Students learn the concept of UDL in the Inclusion Practices courses and apply UDL principles to the use of technology. They write and adapt instructional plans to intentionally demonstrate UDL principles. A signature assignment from this course is included in our department assessment plan and assessment data are reviewed and analyzed annually.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All of our Teacher Education students take two courses in special education: Intro to Special Education and Inclusion Practices. These courses are designed for general education teachers to learn the legal, instructional, and affective elements of working with students with special needs.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students in the Inclusion Practices course (required of all teacher education majors) learn about the IEP creation and implementation process and the role of the general education teacher in that process.

c. Effectively teach students who are limited English proficient.

All teacher education majors take a 3-credit course in working with English learners. This course addresses the legal, instructional, and affective elements needed to work effectively with ELs in the general education classroom.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

All of our Teacher Education students take two courses in special education: Intro to Special Education and Inclusion Practices. These courses are designed for general education teachers to learn the legal, instructional, and affective elements of working with students with special needs. Students preparing to be special education teachers take an additional set of courses focused on instructional practices, behavior management, assessment, and communication with families and community partners.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students in the Inclusion Practices course (required of all teacher education majors) learn about the IEP creation and implementation process and the role of the general education teacher in that process. Additionally, special education certification students take additional coursework that prepares them to lead and participate in IEP processes.

c. Effectively teach students who are limited English proficient.

All teacher education majors take a 3-credit course in working with English learners. This course addresses the legal, instructional, and affective elements needed to work effectively with ELs in the general education classroom.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Our teacher education program has an assessment plan that aligns with the mission of Messiah University and the mission of our program. Each year, we collect and analyze assessment of student learning data and use those findings to develop action plans for the following year. These assessment plans include standardized assessments as well as course-embedded assessments and broader assessments such as the professional portfolio. Student work is reviewed by a subcommittee of faculty who report the findings to the larger group of faculty overseeing the Teacher Education Program. In addition to this general assessment plan, each content major has an assessment plan that focuses on the content and the content-specific pedagogy.
