

MASTER OF OCCUPATIONAL THERAPY

Documentation of Observation Hours

Messiah requires the successful completion of a minimum of 40 hours of observation or volunteer work in two different occupational therapy practice populations (i.e. a pediatric practice setting and an adult practice setting, not two pediatric settings) to meet one of the admission requirements. Please complete the following form to indicate observation or volunteer experiences that are planned and not already documented on your OTCAS application. You may include experiences that are a part of courses or college internships. When indicating the amount of hours, please indicate the total hours per site.

(Note: if you have professional occupational therapy experience, you may include those hours if you were observing a registered occupational therapist during that time.)
