

DON'T LOOK BACK

WHAT WILL YOU DO?

What?

How did what you did today fit with your definition of service?

What did you learn about the issues this organization addresses? In what ways does society contribute to these problems? In what ways might you be contributing to these problems?

What do you think about one-time service projects? Are they helpful? Can they be harmful? How?

So What?

Do you feel that what you did today made a difference? Did it make you feel good about yourself to be helping others? Should it?

Is it important for students to be involved in the community? Why? Who does it help more: the community or the student?

Do you think students at Messiah College should include "community service" or other forms of involvement in the community in courses and/or as co-curricular activities as part of their educational experience? Why? Why not?

Now What?

How would you motivate other students to get involved with social issues like the ones you learned about today?

What are some ways you can continue to learn about the issues you encountered? Identify one thing you could do in the next few weeks to stay involved with this organization and/or issue.
