

GETTING READY

WHAT DO YOU THINK?

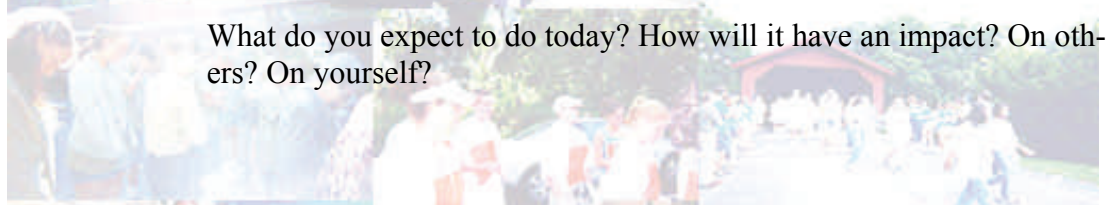

What?

What is your definition of “service”? What makes something “service”?

So What?

What do you expect to do today? How will it have an impact? On others? On yourself?

As you serve, what things do you want to look for? What questions do you want to ask local people if you get a chance?

Now What?

What do you already know about the issues this organization works with? Is it something you feel strongly about? Do you think there is anything you can do to make a difference?
