

***** Fire Safety Training *****

General Information:

The **Fire Safety** class instructors are staff members with the Messiah College Department of Safety who are available to present classes on timely fire safety topics. These classes are open to the Messiah College community including faculty, staff, and students. There is no charge for attendance.

Customized Training:

Please contact the Department of Safety regarding the specific training needs of your department or staff.

Community Fire Safety

Course Length: 1 hour 30 minutes

Pre-requisites: None.

Description: Fire is one of the leading causes of accidental death among all age groups. The number and severity of fires on college campuses have increased dramatically over the last several years. It is for this reason that we strive to have a well planned Fire Safety Program here at Messiah College. This course provides general information related to fire prevention, education, and safety. **(This course can be customized to the specific duties and responsibilities of an office, department, or building. This course can also be combined with Hands-On Fire Extinguisher training).**

Certification: **Attendance only.**

Hands-On Training with Fire Extinguishers

Course Length: 1 hour (approximately, depending on number of participants)

Pre-requisites: None.

Description: Learn the basic concepts of the safe use and proper handling of a multi-purpose fire extinguisher. Course participants will have the opportunity to extinguish a controlled fire. **(This course can be customized to the specific duties and responsibilities of an office, department, or building. This course can also be combined with Community Fire Safety training).**

Certification: **Attendance only.**

These courses are available upon request.
