	Targets - Percentage of students expected to earn a particular score on the measure.
	<b>Timeline</b> - The frequency with which the department will analyze and report student performance on the PLO.

- Assessment of Student Learning website for suggestions about how to process assessment results.
- Action Plans If student performance did not meet the target, identify specific improvement strategies to enact in the upcoming academic year. For example, add instruction on the topic, change an assignment, revise course requirements, revise objectives, identify additional support/resources for students.
- Closing the Loop If you entered action plans for the PLO last year, they will appear in the box below. Please explain what you did to accomplish the action plan this year, re-examine student performance, and determine the success of your action plan.

Measures	Targets	Timeline
ENGR 461 - Project report (Final Report: RTL-SDR Wireless Project	80% of students score 80% or better	Once every two years, next cycle FY23.

Results - Please enter numeric results, indicating the number and percentage of student performance meeting the target. Record faculty discussion about the strengths and weaknesses in student performance. \*Please see the May Development section on the Assessment of Student Learning website for suggestions about how to process assessment results.

**ENGR 461–S21**: (Instructor Observations) Since all three reports obtained a score greater than 80% (in fact all were greater than 90%), the target has been exceeded. On the background and motivation part which addresses aspects of this ABET outcome most explicitly, the groups scored 18/20, 18/20 and 20/20. Since this is the first time

I offered this particular project, certain improvements are possible: 1) having the student groups declare which application they will pursue earlier in the semester, 2) creating a more detailed rubric of expectations, and 3) applying a stricter standard for "considerations of public health, safety and welfare, as well as global, cultural, social, environmental and economic aspects." A peer performance survey may help to determine the relative effort each team member contributed and encourage full participation. (Dept Observations) Even though the assessment passed we feel that the selected artifact would better support the ABET outcome if there were more specific emphasis placed upon the public health, safety and welfare portions of the outcome.

Action Plans - If student performance did not meet the target, identify specific improvement strategies to enact in the upcoming academic year. For example, add instruction on the topic, change an assignment, revise course requirements, revise objectives, identify additional support/resources for students.

**ENGR 461–S21**: Apply a stricter standard for "considerations of public health, safety and welfare, as well as global, cultural, social, environmental and economic aspects.

Closing the Loop - If you entered action plans for the PLO last year, they will appear in the box below. Please explain what you did to accomplish the action plan this year, re-examine student performance, and determine the success of your action plan.

**ENGR 461–S21 Response to Action Plan**: This course was not taught during FY22. Action plan will be addressed when the course is taught Spring 2023.
