Annual Assessment Plan

1

2 **4.1 - Cultural trends for the geographical areas**

Describe the significance of historical and cultural trends for the geographical areas in which the target language is spoken.

Outcome(s)

- 1 Choose one or more accreditor outcome that aligns with your Program Learning Outcome.

There is no selected outcome.

- 2 Choose one or more Institution outcome that aligns with your Program Learning Outcome.

There is no selected outcome.

- 3 **Please Enter The Following Information Below:**

Measures - Need to name specific course/ required experience plus exact exam items, assignments, rubric lines, etc. used for the analysis of performance on the PLO.

Targets - Percentage of students expected to earn a particular score on the measure.

Timeline - The frequency with which the department will analyze and report student performance on the PLO.

Measures	Targets	Timeline
CHIN 201, 300's: Tests	All students will achieve a score of at least 85%	Collected yearly and assessed every third year

- 4 **Results** - Please enter numeric results, indicating the number and percentage of student performance meeting the target. Record faculty discussion about the strengths and weaknesses in student performance. *Please see the May Development section on the Assessment of Student Learning website for suggestions about how to process assessment results.

- 5 **Action Plans** - If student performance did not meet the target, identify specific improvement strategies to enact in the upcoming academic year. For example, add instruction on the topic, change an assignment, revise course requirements, revise objectives, identify additional support/resources for students.

- 6 **Closing the Loop** - If you entered action plans for the PLO last year, they will appear in the box below. Please explain what you did to accomplish the action plan this year, re-examine student performance, and determine the success of your action plan.

I plan to revise the target to: 80% of the students achieve a score of at least 70%.

3 **4.2 - Essays that engage in cultural and literary analysis**

Students will be able to write thesis driven essays that engage in cultural and literary analysis and critical interpretation in the target language.

Outcome(s)

- 1 Choose one or more accreditor outcome that aligns with your Program Learning Outcome.

There is no selected outcome.

- 2 Choose one or more Institution outcome that aligns with your Program Learning Outcome.

There is no selected outcome.

Measures	Targets	Timeline
CHIN 300's: Essay	100 percent of students will achieve a score of 85 or higher.	Collected yearly and assessed every third year
HIST 274 Two 5-7 page analytical papers, each utilizing comparative analysis of two of our in-class texts.	100 percent of students will score 85 or higher.	Fall 2021

- 4 **Results** - Please enter numeric results, indicating the number and percentage of student performance meeting the target. Record faculty discussion about the strengths and weaknesses in student performance. *Please see the May Development section on the Assessment of Student Learning website for suggestions about how to process assessment results.

HIST 274: History of Modern Asia since 1500
Analytical Paper (Target met by 0% of students. Only two students, scored 82 and 84%, just shy of the 85% target).

Discussion

- o Students benefit when this kind of writing is organized in stages with opportunity for feedback and revision, rather than when it is done and assessed as an undrafted process (ie. exam question)
- o Because this course is taught outside the department, is designed to meet objectives for both general education and diverse majors, and is taken by diverse students that have different understandings of what thesis-driven literary or cultural analysis looks like and different levels of experience with this kind of writing, it is very challenging for the Chinese program to know or influence how instruction is happening.

- 5 **Action Plans** - If student performance did not meet the target, identify specific improvement strategies to enact in the upcoming academic year. For example, add instruction on the topic, change an assignment, revise course requirements, revise objectives, identify additional support/resources for students.

Meet with Assessment Office to identify best practices to revise instruction and assessment for students in small majors and interdisciplinary programs.

- 6 **Closing the Loop** - If you entered action plans for the PLO last year, they will appear in the box below. Please explain what you did to accomplish the action plan this year, re-examine student performance, and determine the success of your action plan.

4 **4.3 - A - Communicate in spoken form**

Students will be able to communicate in spoken form in the target language at an advanced level according to ACTFL standards.

Outcome(s)

- 1 Choose one or more accreditor outcome that aligns with your Program Learning Outcome.

There is no selected outcome.

2 Holistic program improvement goals: Programs are expected to have at least one action plan to improve student learning annually. If you have not yet identified an action plan associated with this year's assessment results, or if the department has identified additional issues that require action plans, describe the specific, measurable action plan and its relation to evidence of student performance.

Assessment Rubric

1 **Process**

	1	2	3	4

	1	2	3	4
Is the plan being implemented faithfully and revised as needed?	<input type="radio"/> Assessment plan is not implemented.	<input checked="" type="radio"/> Most aspects of plan are being implemented or all aspects are implemented to some degree.	<input type="radio"/> Assessment plan is fully implemented.	<input type="radio"/> Plan is faithfully executed and modified/evaluated as needed.

2 Explanations:

3 **Engagement**

	1	2	3	4
Are all relevant parties are meaningfully involved in the creation/revision, implementation, analysis, interpretation and learning improvement process?	<input type="radio"/> Limited involvement beyond chair/director	<input checked="" type="radio"/> All educators contributing to the curriculum are aware of process and results	<input type="radio"/> All educators contributing to the curriculum participate in conversations regarding the use of assessment data to improve student learning	<input type="radio"/> All relevant stakeholders (students, employers, alumni) are meaningfully involved in the creation/revision, implementation, analysis, interpretation, and/or improvement processes associated with this assessment plan.

4 Explanations:

5 Program Learning Objectives

	1	2	3	4
<p>Are the program learning objectives clear, measurable, aligned with ULOs/GLOs, and representative of the range of learning for that major/program?</p>	<p style="text-align: center;"></p> <p>PLOs are problematic (vague, abstract, not aligned with ULOs/GLOs) or missing.</p>	<p style="text-align: center;"></p> <p>PLOs are clear, mostly measurable, partially aligned with ULOs/GLOs.</p>	<p style="text-align: center;"></p> <p>PLOs are clear, measurable, aligned with ULOs/GLOs, and represent a summary of the knowledge, skills, beliefs, and values that a graduate of this major/program should attain by completing the required curriculum, accounting for variations in learning outcomes due to tracks/concentrations</p>	<p style="text-align: center;"></p> <p>PLOs are clear, measurable, aligned with ULOs/GLOs, and representative of the range of learning students achieve through completion of the program. The learning objectives provide a comprehensive view of the knowledge, skills, beliefs, and values that are important for a graduate of this major/program and account for variations in learning outcomes due to tracks/concentrations.</p>

6 Explanations:

7
Measures

	1	2	3	4

	1	2	3	4
<p>Are the instruments used to assess learning relevant to the objective? Do measures yield information/data you can use to drive improvement?</p>	<p>○</p> <p>Not all objectives have a measure identified. OR Measures do not directly connect to the objectives.</p>	<p>○</p> <p>All objectives have at least one direct measure. Measures connect to learning objectives superficially or tangentially and/or include learning other than stated objectives. Relies almost exclusively on the same form of assessment (survey, exam, project). Relies almost exclusively on data from a single source (course, program, activity).</p>	<p>●</p> <p>All objectives have at least one direct measure. Some objectives have multiple measures. Measures clearly connect to learning objectives. And two of the following four criteria: Objective measures more than one point in time (formative). Indirect measure are used strategically. Plan Incorporates different forms of assessment (survey, exam, project). Plan incorporates from a variety of sources (course, program, activity).</p>	<p>○</p> <p>Measures meet all of the following criteria: All objectives have at least one direct measure. Plan incorporates different forms of assessment (survey, exam, project). Plan incorporates data from a variety of sources (course, program, activity).</p>

8 Explanations:

9 **Targets**

	1	2	3	4

	1	2	3	4
<p>Are the targets based on professional standards and/or analysis of past student work? Are targets challenging and achievable?</p>	<p style="text-align: center;">○</p> <p>Some targets are missing.</p>	<p style="text-align: center;">○</p> <p>Targets are arbitrarily chosen or reflect minimal expectations.</p>	<p style="text-align: center;">○</p> <p>Targets are challenging and achievable based on prior student performance, and reflect an appropriate level of performance.</p>	<p style="text-align: center;">○</p> <p>Targets are challenging and achievable. Targets are based on professional standards and/or prior student performance. Targets are set at a level to inspire program improvement.</p>

10 Explanations:

I'm uncertain of what to say here. The target of a number of students achieving a 70% score seems low to me, but I'm not sure what it's based on.

11 **Timeline**

1	2	3	4

	1	2	3	4
<p>Is the timeline for data collection manageable with sufficient data points to effectively inform decision making and program review?</p>	<p></p> <p>Not identified clearly for all measures.</p>	<p></p> <p>Clearly states semester/year for each objective/measure. Data analysis delayed from data collection. Time between collection points may not facilitate informed decision making.</p>	<p></p> <p>Clearly stated and manageable schedule. At least two data points for each objective per review cycle.</p>	<p></p> <p>Timeline for data collection is manageable and allows for continuous improvement with timely and meaningful decision making even before program review.</p>

12 Explanations:

13 **Action Plan**

	1	2	3	4

	1	2	3	4
<p>Is the department effectively examining and using assessment data to revise curriculum and pedagogy to support student learning?</p>	<p style="text-align: center;"></p> <p>Assessment data not collected/analyzed/used for decisions and/or results not documented in AEFIS.</p>	<p style="text-align: center;"></p> <p>Data collected, documented and discussed by department. Department reviewed confidence in measures and data as sufficient indicators of student performance. If data indicated changes were needed, action plans were developed in consultation with dean (e.g. improving outcomes, measures, targets, curriculum or pedagogy).</p>	<p style="text-align: center;"></p> <p>Data collected, documented and discussed by department. Department and dean confirmed confidence in measures and data as sufficient indicators of student performance. Action plans (e.g. improving outcomes, measures, targets, curriculum or pedagogy) developed in consultation with dean. If prior year data warranted action plans, the department implemented the changes.</p>	<p style="text-align: center;"></p> <p>Department collected and discussed follow-up data after the implementation of action plans in order to determine whether changes resulted in improvement or whether additional action is necessary. Data confirms effective curriculum and pedagogy for learning outcomes. Score of 4 should be assigned only if objectives, measures, targets and timeline all score a 4.</p>

14 Explanations:

15 **Dissemination**

	1	2	3	4

	1	2	3	4
<p>Is the department communicating learning objectives, results and improvements related to student learning to a wide audience?</p>	<p style="text-align: center;">○</p> <p>No record of assessment results and changes made as a result of assessment findings.</p>	<p style="text-align: center;">○</p> <p>The department/program retains records of assessment results and positive changes made as a result of assessment findings, and results are entered in assessment software system.</p>	<p style="text-align: center;">○</p> <p>The department/program retains records of assessment results and changes made as a result of assessment findings, results are entered in assessment software system, and assessment results and improvements are publicly posted.</p>	<p style="text-align: center;">○</p> <p>The department/program retains records of assessment results and changes made as a result of assessment findings, and results are entered in assessment software system. Assessment results and improvements are publicly posted and shared proactively with faculty, prospective students, employers and alumni in ways that facilitate their discussion.</p>

16 Explanations:

Not sure at this point what dissemination is occurring.

4.1 - Cultural trends for the geographical areas--There's a closing the loop action plan for this objective that suggests reducing the target. I'm not sure if that actually happened or not. Timelines in general right now are unclear since it says assess things every third year, but I can't tell

which year is the third year. Given the timeline I would expect about 1/3 of these to be filled in with some kind of data, but I don't see that that has happened. Though perhaps that is because I'm not clear on your timelines. From what i can tell you assessed one of your six objectives
