Graduates of the Messiah University Social Work Department are eligible to apply for advanced standing, which reduces the number of credits required to obtain a master's degree.

Community Advisory Committee

Mission of the Community Advisory Committee

To promote a reciprocal and continuous relationship between the Social Work Department and members of the practice community and to assist in the ongoing evaluation of

Messiah University Department of Social Work

educational goals and objectives, curriculum, and practicum experiences to enhance Social Work education at Messiah University.

Role of the Advisory Committee

The community advisory committee will offer consultation on curriculum and issues relating to Department policy and practices. The committee will meet at least one time each semester and be composed of 12-20 members including all full-time Social Work faculty, two student representatives from the Social Work Department, and at least eight professional Social Workers.

Assessment of the Social Work Department

The Department of Social Work regularly engages in formal and informal evaluations to assess student's progress toward Department goals, related competencies, and practice behaviors. Informal evaluation consists of feedback solicited by faculty as students are advised and engaged in informal meetings. This allows faculty and students the forum to discuss integration of Christian faith into practice and allows for observation of students' professional and personal growth. Students are regularly given the opportunity to informally meet with faculty through the open door policy, which enables students to meet with faculty any time faculty are in their office, regardless of posted office hours.

Formal evaluation of student progress toward Department goals and course objectives, competencies, and related practice behaviors is ongoing and occurs at regular intervals. Data on student progress is collected through student performance on class assignments, formal admission to the major, practicum evaluations, senior portfolio, graduating student exit interviews, and alumni surveys. Data collected is used to evaluate Department effectiveness in developing competent generalist practitioners. The information is also used to identify areas of Department strengths and areas where improvements can be made.

This lifetime membership will transition with students who plan on attending master's degree programs. Procedures registration can be found at: [Tevera Registration Information](#).

If students identify themselves as a Messiah University student online, it should be clear that any views expressed are not necessarily those of the institution. In the event that opposing views arise on a social media feed, exercise professional judgment. Messiah University does not tolerate content from students that is defamatory, harassing, libelous or inhospitable to a reasonable academic/work environment. Social media may be used to investigate student behavior. This policy provides Messiah University Social Work students with rules for participation in social media.

Therefore, it is the students' responsibility to refrain from any of the following:

Students are required to purchase and refer to the most current Publication Manual of the American Psychological Association for a complete explanation and guide to all types of documentation.

BSW Social Work Practicum Handbook

Each Social Work should also have knowledge of and conform to applicable practicum policies found in the Messiah University practicum handbook prior to entering SOWK learning experience courses. Practicum handbook can be found on the Messiah University website at: [Practicum Handbook](#)

Policies

Social Work Policies

A component of being professional is knowing, understanding and following agency policies and procedures. Students must follow the Messiah University policies outlined in the student handbook and student syllabi. Additionally, students are expected to review and follow the National Association of Social Workers Code of Ethics and the Code of Ethics of the International Federation of Social Workers along with the policies and procedures outlined in each course syllabus, and the policies and procedures noted in the Messiah University Social Work Department handbook.

Policy Related to Not Offering Course Credit for Life or Work Experience

The Social Work major does not grant students course credit for life experience or previous work experience. This Policy is established through the Council on Social Work Education (CSWE) and therefore the Department of Social Work prohibits offering of course credit for life or previous work experience. Additionally, the Department cannot determine equivalency between life/work experiences and Social Work courses/practicum experiences. The Department also cannot determine and evaluate competency development through life experience or previous work experiences.

Messiah University Good Moral Character and Infractions

Students are expected to have an academic and student life disciplinary record reflecting behavior consistent with the "Community Covenant of Messiah University". If a student is involved in an infraction of University or Departmental Policy, the student is expected to notify the Chairperson of the Department of Social Work Social Work to discuss the incident. When a student is involved in a university hearing and after the student's appeal procedures have been completed and the Academic and Student Life Offices have deemed disciplinary action necessary, these offices are expected to report students involved in the offense to the student's

advisor and/or the Chairperson of the Social Work Department. In addition to the actions taken by the University, the Messiah University Social Work Chair and/or the Department of Social Work are charged with reviewing reported incidents and determining a Departmental course of action for the student involved. If in the judgment of the Department Chair and/or the Department of Social Work, a student's academic or disciplinary record reflects a substantial disregard to the expectations for Social Work student conduct, the student will not be approved for admission to, or progression in, the Social Work major. Eligibility for entrance and continued enrollment in the Social Work major will be revoked immediately for behavior contrary to the *Code of Ethics*. In addition, students who are found to be ineligible to continue enrollment in the Social Work major must immediately withdraw (or will be withdrawn) from the Social Work major. An "F" may be the grade given if the student withdraws after the semester's final date for withdrawal. Any student deemed by the Chair and/or the Department of Social Work as failing to meet the standards set forth for Social Work students may appeal this decision following the appeals process outlined within the Social Work Department.

Academic Policies Specific to the Social Work Department

Social Work students are expected to meet the following Social Work specific requirements for graduation. Students are required to have a minimum of a 2.7 GPA in the major, a minimum cumulative GPA of 2.5 and a SOWK course specific grade of 2.3 or better. Any student not receiving a C+ or better in any SOWK course is required to retake the course and obtain a higher grade. Faculty may institute a process for remediation for any student not meeting any of these expectations while in the major. Procedures for handling these situations are similar to procedures for handling concerns regarding student professional performance and are listed below. Any faculty with concerns about student professional performance shall request a conference with other Social Work faculty to discuss the concerns.

The following procedure will be followed:

1. Faculty will meet to develop a plan to address the concerns. Actions described in the plan can include (but are not limited to): Student in difficulty notification, recommendation and plan for remedial action presented to student, contract with the student that designates the corrective action, signed by all parties (i.e. student, faculty).
 - In some cases the student may be recommended for dismissal from the Department of Social Work as part of the professional performance review.
2. The faculty will meet with the student to present the recommended written plan of action.
3. The student may appeal the decision by submitting a written proposal to the Chair of the Department of Social Work within 10 days.
4. If there is not satisfactory resolution, the student can further appeal to the school dean.

Professional Behavior Probation and Dismissal

Behavioral infractions listed below for which Social Work students have been found responsible by the University will be reported to the Department Chair by the student and/or student's advisor. Social Work faculty will review reported incidents and determine a course of action for the student involved.

Reportable infractions include:

1. Any violation of the *Academic Integrity Policy* published in the current *Messiah University Student Handbook*. Violations of the *Academic Integrity Policy* include (but may not be limited to) the following offenses: plagiarism, cheating, fabrication, misrepresentation of academic records, facilitating academic dishonesty, computer offenses, and unfair advantage.
2. A finding of responsibility by the Messiah University disciplinary process or an arrest by an off-campus police agency for any of the following offenses:
 - Underage drinking
 - Discriminatory behavior: racial and/or gender
 - Harassment behavior: abusive and/or sexual
 - Personal dishonesty: stealing and/or theft of services
 - Possession and/or use of illegal drugs
 - Campus possession of university-banned weapons (ex. Firearms)
 - Willful destruction of property
 - Initiating bomb scares and/or false fire alarms
 - Other incidents as identified by the Dean of Students

Professional Behavior Appeals of Suspension or Dismissal

If the student has previously gained conditional or full acceptance to the major, and/or is currently in a practicum placement, any violations resulting in disciplinary probation, suspension, or expulsion will result in immediate review by the Department of Social Work Chair and other faculty relevant to the situation to determine appropriate action (suspension or expulsion results in immediate action for a student in learning experiences). If the student has not applied for formal admission, the admissions committee will consider the disciplinary action during evaluation.

A student who fails to follow Departmental and University behavioral expectations will jeopardize admission to, and continuation in, the Social Work major. Social Work faculty are responsible for determining compliance with this policy, and may consider particular circumstances of student violations, including a student's prompt self-report of the violation, and any remedial effort made by the student.

If the Department determines that the student behavior warrants suspension or termination from the major, the student will receive written notice of the decision within 10 days of the Departmental meeting. The Department Chair will notify the Dean of the School of Business, Education, and Social Sciences of any decision to terminate a student from the major

Messiah University Department of Social Work

Department. Additionally, the Department Chair will work with the registrar's office to remove the student from any Social Work course and the field coordinator will contact any practicum placement to handle placement concerns. Any student deemed by Social Work faculty as failing to satisfy Departmental policies or who has been terminated from the Social Work major may appeal within ten days of the Social Work faculty's decision to the Chair of the Department of Social Work, who shall render a final written determination within ten days of receiving the appeal. Students not satisfied with the decision may appeal to the Dean of the School of Business, Education, and Social Sciences within 5 days of the written determination of the Department.

Procedures for Dismissal from the Social Work Department for Academic and Professional Performance

The Department of Social Work follows procedures for dismissing students for reasons of academic performance that are clearly stated in the *Messiah University Academic Catalog*. Students are informed of these policies during student meetings, during class discussions, and during review of policies contained in the *Messiah University Student Handbook*, *Messiah University Academic Catalog*, and review of the *Department of Social Work Student Handbook* at the beginning stages of their journey at Messiah and in the Social Work major. The expectation to know, understand, and follow Departmental policies is stated in every SOWK course syllabus. There are also course assignments related to reviewing these policies in beginning Social Work classes and practicum classes.

Conference Attendance Policy – Student Professional Development

Professional conferences that are held during the year provide a forum for students to network and become engaged in the profession of Social Work and various professional organizations. Social Work faculty provide information about upcoming conferences and coordinate student attendance at such events to encourage students to attend professional conferences and workshops. Students are responsible for all transportation to and from the conferences and lodging while at the conference. Students are encouraged to volunteer at conferences to reduce fees.

Student Social Work Organizations

Social Work Club

The purpose of the Social Work Club is to encourage cohesion and identity within the Social Work profession through community service, establishing professional contacts, and encouraging one another in Christ. The club sponsors campus wide activities, service projects, and other activities that fulfill the purpose. Students who are declared Social Work majors are considered members of the Social Work Club. Non-majors are also welcome and encouraged to be active members and participants in Social Work Club activities. For more information, students may refer to the constitution and bylaws of the Social Work Club.
