

Interested in Business but not quite sure what major? Not sure what Business Administration Concentration to choose?

Here are some resources available through the career center:

- 1) What Can I Do with this Major?
- 2) FOCUS – self-assessment inventories and major exploration tools
- 3) Career Explorer feature on LinkedIn
- 4) O*NET – ability to learn about careers through job families, industries, career clusters, etc.

Information interviews or job shadowing conduct with at least a couple of professionals in specialty areas of potential interest are also highly recommended in addition to the above web resources. The career center can help connect you with alumni volunteers within the region who are willing to assist in this effort – especially for students who don't have contacts in their current network. Please consult with your academic advisor as well.
