Choosing a Major

Tips & Strategies

Visit the online version of this guide to access hyperlinks.
Choosing a college major is an important decision to make, and often times there’s anxiety about making the “right” decision. **Understanding the relationship between major and career options is critical.** In some cases, career fields demand a specific academic path. For example, teachers are expected to have an education degree, nurses, a nursing degree, accountants, an accounting degree, and so on. In most cases, however, the relationship is not so clear cut. A major opens the doorway to many career possibilities, but it’s up to you to make the most of your experience both in and out of the classroom.

**Ultimately, your academic major is just one factor in determining your future career path and job prospects.** Other factors include: your academic transcript, choice of coursework, out-of-classroom activities, skills acquired through related experience, and personal fit.

### Finding a Fit

The following tips will help you to find a major that’s a good fit for you:

#### 1) KNOW YOURSELF

The most foundational step in choosing a major is a thorough assessment of your strengths, interests, abilities, and values. Try making a list after considering what you have enjoyed from past experiences – school subjects, hobbies, activities, and so on. Then, go one step further and ask yourself **what it was about those activities that were energizing for you?** Try and get as specific as you can. Did they allow you to interact with people? Use your creativity or work with your hands? Often, this is a more difficult task than anticipated! You’re strongly encouraged to utilize the **FOCUS** system through the Career and Professional Development Center to go a bit more in depth with this exercise.

#### 2) KNOW YOUR OPTIONS

There are many options as far as majors go, so it’s important to do your research before choosing one. Above all else, choose a major that is most congruent with your interests, strengths, and abilities. Here are some suggestions for gathering more information:

- **a)** [Online College Catalogue](#) – Carefully read through the full list of majors. Identify the majors which are of interest to you or that you might like to know more about. Eliminate the majors you would definitely not want to pursue due to lack of fit with interests/abilities. Be open to majors you may have never heard of or considered. Notice any themes? Patterns? Now, take time to read through the course requirements and descriptions for those majors you liked How do they measure against one another based on what you know about yourself?

- **b) Career Resources by Major** – Wondering what career paths are typically associated with the majors you’re considering? This resource will give you this information, in addition to employment and graduate school statistics of Messiah alumni in any given major.

- **c) Academic Departments/Faculty Members** – First, check out the website(s) of departments which house the majors you’re considering. Make an appointment to talk with a faculty member who
teaches in the department you’re considering – they’re eager to talk with you! What suggestions do they have? What do they see as the strengths of the major?

d) **Upper-class Students** – Get an insider’s perspective by consulting a junior or senior in the major. Why did they choose the major? What do they like/dislike about it? What do they hope to do after graduation? Ask for referrals from faculty members in the academic department.

e) **Information Interviews and Job Shadowing** – One of the best ways to explore a career field of interest is to speak with/observe someone currently working in that field. Find out what majors, if any, are strongly preferred in a given field, as well as any other qualifications. If you’ve tapped your personal network and you are still having a difficult time identifying someone, let us help you. Connect with Messiah alumni by joining the Messiah College Professional Network on LinkedIn. If you have questions or need assistance, talk with a career coach in the Career and Professional Development Center.

f) **Exploratory Courses** – Even after you’ve done all the suggested research, it’s often helpful to sit in on a class or take an introductory-level class within a major you’re considering to see if it’s really something you would enjoy. Talk with your advisor or a career coach about how to do this.

### 3) KEEP PERSPECTIVE

Remember that your major is one piece of the package. What you do with your time as a college student is up to you. However, we encourage you to make the most of the complete experience by applying knowledge gained from the classroom in practical, relevant settings – student clubs and organizations, service learning and volunteer work, athletics, study abroad, internships, undergraduate research, and more. **What you do with your time will speak volumes to employers and graduate schools, so choose your activities strategically!** Here are some other things to keep in mind:

a) **Value of a Liberal Arts Education** – not so excited about taking general education requirements? Believe it or not, there is lifelong value in a liberal arts education. Not only does it prepare you to be a well-rounded and global citizen, it also provides an opportunity to develop perspectives, skills, and abilities that are highly sought by employers. Check out the “Liberal Arts in the Workplace” section on the Career and Professional Development Center’s website.

b) **Transferable Skills** – Virtually all employers want to hire someone with certain skills such as communication, problem-solving, teamwork, organization, etc. There are many ways – and majors – to help you develop skills in these areas. **Most always, a college major is not enough in and of itself to get you hired.** Job candidates must be prepared to articulate and demonstrate the skills and experiences they have to offer. Talk with a career coach about setting goals to gain marketable/professional experience.
Choosing a Major Exercise

Use the following exercise to answer questions about each major you are considering. Discuss your answers with your academic advisor and/or a career coach.

Major Option #1: ___________________________  Department: ___________________________

1. How many courses/credits are required to complete this major? ________

2. How much freedom is there for free elective courses and flexibility in the order of when classes are taken? ______________________________________________________________

3. Is there a minimum GPA I would need to maintain for this major? _______ GPA ________

4. Are there any pre-requisite classes for entering the major? ______________________________

5. Is it possible to minor in this area? ________

6. Approximately what percentage of the required coursework and course descriptions (college catalogue) appeal to you? ___________ Why? ______________________________________________________________

7. What about the major is NOT appealing to you? __________________________________________

8. What interests and abilities are critical for students in this major? __________________________

9. Does this major require any time off campus for activities such as internships, study abroad? ______________________________________________________________

10. What are sample internships that students in this major have completed (find out from the Career and Professional Development Center)? __________________________

11. What have graduates from this major gone on to do after graduation (employment and/or graduate schools)? __________________________________________________________________________

12. Who is the department Chairperson? ________________________________________________

13. Who is the department Assistant? (Important when scheduling appointments!) __________________________________________________________________________

14. What steps do you need to take to learn more about this major? __________________________

15. What other majors might be similar to this one? __________________________________________
### SCHOOL OF BUSINESS, EDUCATION AND SOCIAL SCIENCES

**Department of Education**
- Education with Teaching Certification in Grades Pre K-4
- Education with Dual Teaching Cert. in Pre K-4 and Special Education (N-8)
- Education with Teaching Cert. in Middle Level (Grade 4-8)

**Department of Human Development and Family Science**
- Child and Family Services
- Human development & Family Science
- Family & Consumer Science with K-12 Teaching Certification

**Department of Management and Business**
- Accounting
- Business Administration
- Economics
- Economic Development
- International Business
- Marketing

**Department of Psychology**
- Psychology (B.A. or B.S.)
- Biopsychology

**Department of Sociology, Anthropology, & Criminal Justice**
- Criminal Justice
- Sociology & Anthropology
- Sustainability Studies

**Department of Social Work**
- Social Work

### SCHOOL OF SCIENCE, ENGINEERING AND HEALTH

**Department of Biological Sciences**
- Biology
- Biology with Teaching Certification
- Biology and Environmental Education Dual Certification
- Biopsychology
- Environmental Science
- Molecular Biology
- Sustainability Studies

**Department of Chemistry and Biochemistry**
- Biochemistry (B.A. or B.S.)
- Chemistry (B.A. or B.S.)
- Chemistry with Secondary Teaching Certification

**Department of Engineering**
- Engineering

**Department of Health and Human Performance**
- Adventure Education
- Athletic Training
- Health & Exercise Science
- Health & Physical Education with K-12 Teaching Cert.
- Sport Management

**Department of Informational & Mathematical Sciences**
- Computer & Information Science
- Mathematics
- Mathematics with Secondary Teaching Certification
- Physics (B.A. or B.S.)

**Department of Nursing**
- Nursing

**Department of Nutrition and Dietetics**
- Nutrition and Dietetics

### Pre-Professional Health Programs
- Pre-Dental
- Pre-Medical
- Pre-Health
- Pre-Veterinary

### SCHOOL OF THE HUMANITIES

**Department of Biblical & Religious Studies**
- Biblical & Religious Studies
- Christian Ministries

**Department of Communication**
- Communication
- Digital Media
- Film & Media Arts
- Journalism
- Media, Culture and Technology
- Public Relations

**Department of English**
- English – Literature
- English - Writing
- English with Secondary Teaching Certification

**Department of History**
- History
- History Major with Secondary Social Studies Teaching Certification

**Department of Modern Languages**
- Chinese Business
- Chinese Studies

### DEPARTMENT OF PHILOSOPHY
- Philosophy

### DEPARTMENT OF POLITICAL SCIENCE
- Politics
- International Relations

### Pre-Professional Programs
- Pre-Law

### SCHOOL OF THE ARTS

**Department of Visual Arts**
- Studio Art (B.A. or B.F.A.)
- Art History
- Art Education with K-12 Teaching Cert.
- Art Business
- Digital Media

**Department of Music**
- Music
- Music (business)
- Guitar Studies
- Music Performance
- Music Education with K-12 Teaching Certification

**Department of Theatre**
- Theatre
- Theatre (Business)
- Dance
- Musical Theatre

### 3+ (ALLIED) PROGRAMS
3 years at Messiah College + more time at another College or University

- Biochemistry (B.A.)/Doctor of Pharmacy (PharmD)
  - In partnership with University of the Sciences
- Biopsychology (B.S.)/MSOT in Occupational Therapy
  - In partnership with Thomas Jefferson University
- Health and Exercise Science with Health and Fitness Concentration (B.A.)/MSOT in Occupational Therapy
  - In partnership with Thomas Jefferson University
- Politics (B.A.) with M.S. in Public Policy and Management
TRUE OR FALSE?
Common Myths for Undeclared Students

1. **Choosing a major means that I have to say “no” to many other areas of interest.**
   
   **FALSE** – For most academic areas, there are many ways to combine interests in more than one major. Some possibilities include declaring a double major, adding a minor (or minors) to your academic plan, or choosing a concentration. If these are not viable options, you can be intentional about seeking opportunities to develop experience in your areas of interest.

2. **What I major in has a direct impact on my future career options.**
   
   **IT DEPENDS** – In some cases, such as applied areas, career fields demand a specific academic path. For example, public school teachers are typically expected to have an education degree, engineers, an engineering degree, and so on. In most cases, however, the relationship is not so clear cut. A major can open the doorway to many career possibilities, and it is up to you to make the most of your experience both in and out of the classroom and apply it to a particular field.

3. **Students who declare a major in arts, humanities, or social sciences will not have many career options after graduation.**
   
   **FALSE** – Liberal arts majors are well-prepared – and are hired – for a variety of careers. Messiah College alumni are successful in a variety of areas, such as business, teaching, nonprofits, government, law, medicine, and the helping professions, just to name a few. The specific skill sets you develop in these majors are vitally important to a diverse range of career fields. To learn more about the value of a liberal arts education, consult the Career and Professional Development Center’s website.

4. **The majority of students entering college are still undecided about their major.**
   
   **TRUE** – Almost 80% of students entering college are uncertain about what they want to major in, even if they have initially declared a major. And over 50% of first-year students will switch majors at least once before they graduate.* This is a natural part of the exploration process.

5. **A career assessment can tell me what major to declare.**
   
   **FALSE** – No assessment can give you a magic answer which will tell you what major to declare or what career to pursue. However, assessments can help you and your career coach identify patterns or themes of strengths and interests which are indicators of best-fit majors.

6. **The most important factor for me to explore as I am considering a major is a potential career field.**
   
   **FALSE** – Knowledge of your own interests, skills, and abilities is just as important as your understanding of potential career options. A career coach can be an excellent resource as you engage in this exploration process. To schedule an appointment, please contact the Career and Professional Development Center.
