Additional Grants:
Cross-Cultural Grant ................................................................................................. 21
Service-Learning Grant .............................................................................................. 23
Reigsecker Gender Studies Grant .............................................................................. 25

I. Collaborative Projects
A. For on-campus collaboration: Faculty members may choose to collaborate on a given project. In such cases, faculty members may submit a joint proposal, but the role of each collaborator should be clearly described. If the time commitment for each Messiah College collaborator is comparable to that for an individual project, then each faculty member may be funded up to the maximum amount.

B. For off-campus collaboration: If a project is to involve collaboration with a person or agency external to Messiah, then the nature of that collaboration (including financial arrangements, if any) should be stated in the applicant’s background statement. Include a letter of support if possible. If plans are in a preliminary stage, explain the anticipated relationship with the collaborators.
II. Budget
A. The budget included as part of each application needs to itemize anticipated expenses, which may include items such as book or software purchases, supplies, library usage costs, and travel directly related to the project. Any portion of the grant exceeding project expenses shall be considered a taxable stipend for summer activity.
B. Since all faculty have access to college-owned computers, requests for computer purchases will not be considered. Requests for software or specific equipment necessary for a project will be considered.
C. Some general guidelines to use in helping to plan the budget:
1. Refer to the College Expenditure Policy for travel reimbursement rates.
2. Weekly stipends should be figured at $802 per week.
3. Load reduction “buyouts” are based on 125 percent of adjunct replacement costs ($1,551 per load unit).

III. Stipulations
A. Only Ranked Faculty with a 2018 – 2019 contract are eligible to apply for grants. (Lecturers may apply for all categories except Scholarship Grants.)
B. A faculty member can be awarded only one individual grant per year. (If one of the grants is a Smith Scholar Intern grant, Teaching Internship Grant, SoTL grant, or a minor role in a collaborative project, a faculty member may be awarded a total of two grants.) Proposals need to be submitted for a specific category. However, if in the judgment of the Committee the proposal is deemed appropriate for another category, it may be considered for that one instead.
C. If any two proposals within the same category are judged to be of equal merit, then reasonable equity in the distribution of grants and other institutional funding (e.g., workload reallocation, scholarship chairs, etc.) over a period of years will be an additional criterion.
D. If the proposed project involves research on human subjects, the application should speak to the current status of IRB approval (https://www.messiah.edu/info/20241/institutional_review_board). IRB approval must be granted before the start of data collection.
E. Faculty who will be receiving college support (e.g., workload reallocation, scholarship chairs, Sawyer digital proficiency fellow, etc.) during the grant period must describe the particular tasks that require new funding and distinguish them from any current institutional or external support.
F. All grants are distributed according to available funding. Grant proposals frequently are awarded only partial funding. In these cases, recipients are offered the option of declining the grant.

IV. Assessment:
All those who have been awarded a grant are required to file a summary statement with the Director of Faculty Development (facdev@messiah.edu) upon completion of the project. This summary should include an evaluation of success in reaching grant objectives and documentation of results. Supporting documentation might include:
A. evidence of change in teaching practice
B. evidence of revised course
C. completion of research study
D. presentation or publication of project
Assessment reports will be placed in the “Grants and Sabbatical File” and used in the ongoing assessment of the faculty grant program and in considering future grants proposed by the faculty member. In addition, a copy of the assessment will be sent to the respective Dean of the School. Successful completion of projects will be considered as evidence of a faculty member’s ability to effectively steward grant resources.
GRANTS FOCUSED ON TEACHING

COURSE DEVELOPMENT GRANT

Maximum Amount: $1,000
(2017-2018: 7 grants totaling: $4,810)
(2018-2019: 7 grants totaling $5,957)

A. Description:
This grant is designed to provide support for faculty preparing for a new course or significantly redesigning an existing course. The committee particularly welcomes individual or collaborative project proposals related to the six criteria of Messiah College’s Teaching Rubric (Content Knowledge, Faith and Learning, Inclusive Excellence, Organizational Supports, and Student Learning), technology, and experiential learning. Grant funds may be used in a variety of ways: purchasing books, software, materials, attending conferences or workshops on teaching, data gathering, visiting exemplary programs, etc. Proposals may include a request for up to one week of stipend; requests related to direct expenses are prioritized above those for stipends.

The Scholarship and Development Committee will evaluate the proposals and award the grants assisted by evaluative comments from the Associate Director of Faculty Development for Teaching and Learning.

B. Application:
An application must include:
• a cover page (including the applicant’s name, the category of grant requested, a one-sentence description of the proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)
• a purpose statement describing the need for developing or revising the course
• a statement of whether the course has already been approved or, if not, where it is in the approval process
• if applicable, an explanation of how this funding will be coordinated with other campus funding (e.g., technology funding or school funds)
• a tentative syllabus for the course to be developed or revised
• a statement of goals
• a timetable
• a budget

C. Criteria for Selection:
1. The quality of the grant proposal, including overall organization, clarity and thoroughness.
2. The extent to which the proposal calls for substantial new preparation on the part of the faculty member.
3. The likelihood that the project will contribute positively to the strategic plan of the College.
4. Successful completion of previously awarded internal grant projects.
TEACHING ENHANCEMENT GRANT

Maximum Amount: $1,000
(2017-2018: 4 grants totaling $3,272)
(2018-2019: 3 grants totaling $3,000)

A. Description:
The purpose of this award is to support faculty who wish to give some concentrated attention to a specific area of their teaching. Usually this will involve working on an area of pedagogy that has the potential to enhance instruction at the College. The committee particularly welcomes individual or collaborative project proposals related to the six criteria of Messiah College’s Teaching Rubric (Content Knowledge, Faith and Learning, Inclusive Excellence, Organizational Supports, and Student Learning), technology, and experiential learning. Grant funds may be used in a variety of ways: purchasing books, software, materials, attending conferences or workshops on teaching, data gathering, visiting exemplary programs, etc. Proposals may include a request for up to one week of stipend; requests related to direct expenses are prioritized above those for stipends.

The Scholarship and Development Committee will evaluate the proposals and award the grants assisted by evaluative comments from the Associate Director of Faculty Development for Teaching and Learning.

B. Application:
An application must include:
• a cover page (including the applicant’s name, the category of grant requested, a one-sentence description of the proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)
• a statement of background (context) for the project
• a statement of goals
• a timetable
• a budget

C. Criteria for Selection:
1. The quality of the grant proposal, including overall organization, clarity and thoroughness.
2. The potential contribution of the initiative toward fostering teaching excellence at Messiah College,
3. Successful completion of previously awarded internal grant projects.
SCHOLARSHIP OF TEACHING AND LEARNING (SOTL) SCHOLARS PROJECT

Scholarship of Teaching and Learning (SoTL) Scholars Project  
(2017-18: 3 grants)  
(2018-19: 1 grant)

A. Description:
The Ernest L. Boyer Center cosponsors with Faculty Development a grant that supports faculty in developing, implementing, and disseminating a Scholarship of Teaching and Learning (SoTL) project. The Scholarship of Teaching and Learning encompasses a broad set of practices that engage faculty in critically examining teaching and learning in order to improve student learning and to share their insights. Proposals that reflect disciplinary based or interdisciplinary projects are welcomed.

B. Rationale:
Why might I apply?
Do you have a specific assignment that intuitively seems to work well for student learning? SoTL is a good way to examine the extent to which and why it works. Do you have a particular content or skill that students really struggle to understand? SoTL provides an avenue to test the impact of a new pedagogical strategy. Are you interested in advancing both your teaching and your scholarship agenda? SoTL allows faculty to find evidence of student learning and to contribute to the larger knowledge base of teaching and learning.

C. Proposal Elements:
Research Question:
Each SoTL proposal should begin with a clear research question. Here are a few examples:
1. What promotes student understanding of mathematical proof? 
2. How does journal reflection promote understanding of the immigrant experience? 
3. Does a simulation learning activity advance students’ ability to communicate technical accounting content? 
4. Do students demonstrate greater mastery of content in a flipped class than a lecture-only class?

Identify and describe the unit of analysis:
Each proposal should identify a specific course assignment (e.g. reflective journal, exam), or a particular pedagogical strategy (e.g. discussion technique, peer review, performance assessment) that will be the focus of the project. This assignment/strategy and its course context should be described.

Interest in SoTL:
Proposal should describe the importance of your research question and how it will advance our knowledge of teaching and learning.

D. Timeline for the project:

</tr>
</tbody>
</table>

E. Application:
a. Project Proposal (as described above) 
b. Current curriculum vitae 
c. Have you applied for or received any 2019-20 load release? How does your proposal to participate in this project differ from your load release application?
F. Criteria for Selection:
1. Significance and feasibility of the goals for the project and dissemination.
2. Quality of the proposal, including overall organization, clarity, and thoroughness.
3. Alignment with the aims of Scholarship of Teaching and Learning.
4. Successful completion of previously awarded internal grant projects.

Selection:
Made by a committee that includes the Director of The Ernest L. Boyer Center, the Director of Faculty Development, the Associate Director of Faculty Development for Teaching and Learning, and a past recipient of the SoTL grant.

TEACHING CONFERENCE ATTENDANCE GRANT

Maximum Amount: $1,000
(2018-2019: 1 grant totaling $1,000)

A. Description:
This grant supports the dissemination of pedagogical research at an academic or professional conference and/or the attendance of a teaching and learning related workshop. Priority consideration will be given to project proposals that strongly enhance educators’ learning, that have a demonstrable impact on students’ learning, and that address relevance to the six categories of Messiah College’s Teaching Rubric (Content Knowledge, Faith and Learning, Inclusive Excellence, Organizational Supports, Student Engagement, and Student Learning).

B. Proposal Overview:
Describe the event you will be attending, including:
1. The target audience of the conference
2. The theme/topic of the conference
3. Your role (presenter, attendee, facilitator, etc.).
   • Will you be presenting your own research?
     If so, please summarize this research and its significance.
     Please explain the benefits of this experience for your professional development as a teacher as well as the impact it could bring to the Messiah College learning community upon return (such as presenting at a Teaching Tuesday, School meeting, etc.).

C. Application:
1. Project Proposal
2. Current Curriculum Vitae
3. Budget (Note: Funds can only be used for direct expenses related to conference attendance.)
   • If applicable, include information about other sources of both internal and external funding for the conference
D. Criteria for Selection:
   1. Clarity of the goals/objectives for participants
   2. Quality of the proposal, including overall organization and thoroughness
   3. Successful completion of previously awarded internal grant projects

Selection:
The Scholarship and Development Committee will evaluate the proposals and award the grants assisted by evaluative comments from the Associate Director of Faculty Development for Teaching and Learning.

TEACHING INTERNSHIP GRANT

Grant amount: $575
(2016-17: 3 grants)
(2017-18: 5 grants)

A. Description:
This grant is designed to support faculty in specific areas of their course and to give undergraduate students an opportunity to explore and experience the process of college teaching. The grant funds a teaching intern who partners with a specific faculty member in the delivery of a particular course over the course of a single semester. Teaching interns must be at least junior standing with a minimum 3.0 GPA and should typically be assigned to a course where the students would be at least one academic year behind them in academic standing.

The faculty mentor and intern should identify specific intern contributions to the course that are planned in the partnership. The intern may be the primary instructor for a few class sessions, but should not be used as a routine substitute. Also, grading of assignments may be a portion of the intern’s duties, but should not be the primary responsibility. The intern should be involved in course development and planning, and/or improving pedagogy and delivery. The amount awarded to the student is paid on an hourly basis up to a maximum of $575 per semester. The mentoring professor may submit a teaching intern proposal in conjunction with another internal grant, or it may be submitted independently.

Both Teaching Intern Grants and Smith Scholar Intern Grants are available regardless of whether a faculty member receives another grant. However, neither a faculty member nor a student may hold both kinds of intern grants at the same time.

B. Application:
An application may be initiated by either the faculty sponsor or the student intern, but must be endorsed by both before submitting. The application should include a project proposal detailing:

- The course that the intern will support
- The specific contribution expected to that course
- Anticipated benefits to the intern from the experience
• Current curriculum vitae for the sponsoring faculty member
• Internal grant connection – does this proposal connect to any other internal grants for which applications are currently being submitted?

C. **Selection Criteria:**
1. The quality of the grant proposal, including overall organization, clarity, and thoroughness.
2. The extent to which clear contributions to the course and benefits to the intern are articulated.
3. Successful completion of previously awarded internal grant projects.
4. Priority will be given to students without a prior opportunity to complete a teaching internship and faculty without other teaching interns.

**Selection:**
The Scholarship and Development Committee will evaluate the proposals and award the grants assisted by evaluative comments from the Associate Director of Faculty Development for Teaching and Learning.

---

**GRANTS FOCUSED ON SCHOLARSHIP**

**SCHOLARSHIP GRANT**

Maximum Amount: $5,000
(2017-2018: 12 grants totaling $18,155)
(2018-2019: 11 grants totaling $23,805)

A. **Description:**
A scholarship project may deal with any topic or activity of current interest to faculty. Scholarship is defined using Boyer’s categories of discovery, teaching, integration, and application. Grants will be available to support new scholarship initiatives as well as the completion of on-going projects. Faculty may propose projects that include collaboration with students, possibly using the Smith Scholar Intern Grant.

Grant funds may be used for direct expenses associated with the project and/or for stipends of up to two weeks. Requests related to direct expenses are prioritized over requests for stipends. Grants may be used to support the dissemination of scholarly projects; requests for subvention funding should be accompanied by materials that document the project’s worthiness and the need for such support.

Grants may also be used for course load reduction; these are extremely competitive and are awarded only in extraordinary circumstances. Course buyouts are not available to those individuals with Distinguished Professorships, Scholar Chairs, or sabbaticals during the grant period.

Applicants who are participating in the Workload Reallocation program should clearly indicate the additional work that will occur if a course buyout is awarded. An applicant requesting a buyout should include a statement from the Department Chair indicating the number of credits of buyout and describing the feasibility of securing appropriate coverage for a course. Applicants requesting a course buyout are advised to include an
alternate request for stipends or expense reimbursements that might be awarded if buyout funding is not available.

B. Application:
An application must include:
• a cover page (including the applicant’s name, the category of grant requested, a one-sentence description of the proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)
• applicant’s c.v.
• a statement of background (context) for the project
• a statement of goals
• a timetable
• a budget (including information about other sources of both internal and external funding for the project)

C. Criteria for Selection:
1. The quality of the proposal, including overall organization, clarity, and thoroughness, as evidence of high likelihood of resulting quality scholarship.
2. The likelihood that the goals stated in the proposal can be attained in the time period for the grant (recognizing that the goals of the proposal need not be the final completion of an ongoing project).
3. The likelihood that the work resulting from the project will result in some form of publication or other dissemination to the greater scholarly community, or will represent a significant step toward eventual publication or other form of dissemination. (If the faculty member has received a previous scholarship grant, then the progress made toward publication or other dissemination as a result of that grant will be an important factor in applying this criterion to the new proposal.)
4. Successful completion of previously awarded internal grant projects.

THE DR. ROBERT & MARILYN SMITH SCHOLAR INTERN GRANT

Amount: $575 per semester ($1,150 max)
(2017-2018: 5 grants totaling $5,175)
(2018-2019: 7 grants totaling $6,325)

A. Description:
This grant enables highly capable juniors or seniors to spend a semester or a full year being mentored by a faculty member who is involved in a significant scholarly project. (In exceptional cases, a lower division student may be considered.) The amount awarded to the student is paid on an hourly basis up to a maximum of $575 per semester. The mentoring professor can submit a scholar intern proposal in conjunction with another internal grant, or it may be submitted independently. The activities undertaken by a student intern will vary according to the needs of the project, but the intern’s commitment of time is not to exceed 75 hours per semester. Summer internships may be requested (in place of either fall or spring semester) if that is when the mentoring will occur.

These grants will not be given to fund senior projects, Honors projects, independent studies, or any other student driven undergraduate research project. The intention of the Smith Scholar Internship program is to acquaint gifted students with the scholarly processes and professional projects of professors.

Both Teaching Internship Grants and Smith Scholar Grants are available regardless of whether a faculty member receives another grant. However, neither a faculty member nor a student intern may hold both kinds of internship grant at the same time.

B. Application:
1. A statement written by the professor describing his or her scholarly project, the activities to be undertaken by the student, and the mentoring to be provided by the professor. (Faculty members requesting the same student for an additional year must submit a new rationale.)
2. A statement from the student indicating what he/she hopes to gain from the experience, endorsed with the professor’s signature.
C. Selection Criteria:
The Smith Scholar Interns will be selected based on the potential benefit to the student, to the sponsoring faculty member, and to the discipline.

ADDITIONAL GRANTS

CROSS-CULTURAL GRANT

Maximum Amount: $2,500
(2017-2018: 3 grants totaling $5,055)
(2018-2019: none)

A. Description:
The grant is designed primarily to assist faculty in undertaking feasibility studies and curriculum development of new cross-cultural courses. A secondary purpose is to support the revision of existing cross-cultural courses to locations that have experienced major changes. Grant money may be used for the purchase of resource materials, as well as in conducting site visits and interviews with potential resource persons or host families.

B. Application:
Applications must include:
• a cover page (including the applicant’s name, the category of grant requested, a one-sentence description of the proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)
• an overview of personal experience, research or academic interests in the country/culture under consideration
• a rationale developed in consultation with the Director of the Intercultural Office and the Associate Dean of General Education, Common Learning, and Advising as to why students should be offered opportunities in this particular setting at this time
• a statement of whether the course has already been approved or, if not, where it is in the approval process
• a tentative syllabus
• a timetable
• a budget
Applications will be reviewed and selected in close consultation with the Director of the Intercultural Office and the Associate Dean of General Education and Common Learning.

C. Criteria for Selection:
1. Quality of the grant proposal, including overall organization, clarity, and thoroughness.
2. Degree to which the proposal broadens international and cross-cultural course offerings.
3. Demonstrated interest or expertise in the country as evidenced by academic and scholarly work, or prior exposure to/immersion in the culture.
4. Degree to which the content or structure of repeat courses require new preparation and information gathering on the part of the faculty member.
5. Successful completion of previously awarded internal grant projects.

SERVICE-LEARNING GRANT

Maximum Amount: $1,000
(2017-2018: none)
(2018-2019: none)

A. Description:
This Service-Learning Faculty Grant is designed to encourage faculty to integrate service learning into the curriculum. Therefore, the grant can be used for the advancement of two purposes: faculty scholarship in the area of service-learning or integration of service learning into existing coursework. The Director of the Agapé Center for Curricular Service and Learning is available for consultation in developing a grant proposal.

B. Criteria for Selection (Choose one of the two):
1. For Faculty Scholarship in the area of Service Learning:
   a. Likelihood of successful publication of service-learning assessment and research in a peer reviewed academic journal or book
   b. Clear, measurable objectives of service learning research and assessment
   c. Plan to disseminate research and assessment among peers
   d. Projected outcomes of proposed experience and scope of impact
2. For Service Learning Integration within a course:
   a. Degree to which service learning accomplishes both the learning objectives for the course and the community goals for the service-learning project
   b. Identification of content, service and reflection components in the syllabus
   c. Frequency of the course offering and/or number of students likely to participate
   d. Amount of new preparation required on the part of the faculty member

C. Application:
Application must include:
• A cover page (including applicant’s name, category of grant requested, a one-sentence description of the purpose of the
proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)

• An outline of program activities, objectives and anticipated outcomes
• A budget (a portion of the budget, not to exceed 75%, may be used for transportation)
• For scholarly projects, a plan for disseminating results from the project.
• For course integration, a statement of whether the course has already been approved or, if not, an explanation of where it is in the approval process

Selection:
The Scholarship and Development Committee will evaluate the proposals and award the grants assisted by evaluative comments from the Director of the Agapé Center.

RIEGSECKER GENDER STUDIES GRANTS

Maximum Amount for Riegsecker Scholarship Grant: $2000
Maximum Amount for Riegsecker Course Grant: $1000

A. Description:
The Riegsecker Gender Studies Grants are designed to encourage faculty to explore issues that address Gender Studies OR to integrate topics that address Gender Studies into the curriculum. Therefore, grants may be used to advance (1) faculty scholarship in the area of Gender Studies or (2) integration of Gender Studies topics into new or existing coursework. Suitable topics might include gender and faith, gender and education, gender issues in programing and policy development, Title IX, and many others. Funding priority will be given to scholarship that addresses gender and faith and to projects that support collaboration with students and/or other educators, including co-curricular educators and other members of the campus community.

The Chair of the Gender Concerns Committee is available for consultation in developing a grant proposal. Two or more grants may be awarded in each of the two categories.

B. Criteria for Selection:

1. For Faculty Scholarship Grants:
   a. Clear, measurable objectives that address Gender Studies research
   b. The quality of the grant proposal, including organization, clarity and thoroughness
   c. Likelihood that the work will be successfully disseminated to the greater scholarly community (or represent a significant step towards publication or other form of dissemination)
   d. Plans must include a presentation on campus. Include costs for this event in the proposal budget.
   e. Successful completion of previously awarded internal grants

2. For Course Grants:
   a. Degree to which the integration of Gender Studies accomplishes the learning objectives for the course
   b. The quality of the grant proposal, including organization, clarity and thoroughness
c. Amount of new preparation required on the part of the faculty member
d. Successful completion of previously awarded internal grants

C. Application:
1. Scholarship Grant application must include:
   • A cover page (including applicant’s name, category of grant requested, a one-sentence description of the proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)
   • A statement of background (context) for the project
   • A statement of goals including an outline of program activities, objectives and anticipated outcomes
   • A timetable
   • A budget (including information about other sources of both internal and external funding for the project as well as costs for requisite campus presentation)
   • Plans for campus presentation

2. Course Grant application must include:
   • A cover page (including applicant’s name, category of grant requested, a one-sentence description of the proposed project, the total dollar amount requested, and a list of internal grants received by the applicant in the past three years)
   • A purpose statement describing the need for developing or revising the course
   • A statement of whether the course has already been approved or, if not, an explanation of where it is in the approval process
   • A tentative syllabus for the course to be developed or revised
   • A statement of goals
   • A timetable
   • A budget

Selection:
The Scholarship and Development Committee Chair will evaluate all proposals and select recipients of the award assisted by evaluative feedback from the Chair of the Gender Concerns Committee.
