Note From the Director

One of our callings in the CHP is to explore fundamental questions together. One such question especially relevant to you in the honors program is this — How do we pursue excellence in our studies and our work without losing our soul and part of ourselves in the process? This Thursday evening, Dr. Elizabeth Corey of Baylor University will be addressing this important question. She’s very well-suited to do so. In addition to being a fine teacher and scholar and a one-time aspiring musician, Dr. Corey is also a wife, a mother, and a dedicated member of her church community. I’ve heard her speak before and can promise that she’ll provide much food for thought in her talk.

We were excited to hear recently that the CHP may be granted use of special-interest housing, specifically the Woodland House. If our application is accepted, it will mean that for the first time ever the CHP would have dedicated space on campus to use for both academic and social purposes. It would also mean that a group of female CHP students would be able to live together in the Woodland House next year. As we await response from Residence Life, female students, please let us know at collegehonorsprogram@messiah.edu if you are interested in the Woodland House or if you have any questions about it.
