• The Valid from and Valid to dates can be typed in or chosen from the calendar. **The Valid to date must allow for time for the invoice to be processed. • Hide Amount from Supplier must remain checked. The Supplier does not need to know the blanket order amount.

• Optional: Alert Amount - When the funds available on the blanket order drop below the alert amount entered, a warning email is generated and sent to your email.
- Optional: Alert Date - On the date entered, an email is generated to remind the user to create another blanket order.
