

First Semester Blueprint
Department of Health, Nutrition and Exercise Science

When planning your first semester...

- Students should register for a minimum of 12 credits and no more than 16. ([Minimum may be higher for accelerated programs.](#))
- All First-Year students are required to take First Year Seminar their first term. This is a required course, and each section focuses on a different topic for students to explore.
- Science labs meet approximately three hours once a week. As you arrange your class schedule, consider the meeting times of labs first, then design the rest of your schedule around them.
- BIOL 170 is only offered in the fall semester. If you are in the pre-professional or pre-physical therapy concentration, it is important to take this course in the fall of your first year in order to stay on track with major courses.
- Students who have earned AP, CLEP, or IB credit should refer to the information provided here: [AP, CLEP, IB Credit](#).
- You can view the most up-to-date version of the schedule of classes by accessing [The View](#).

Applied Health Science (B.S.) Pre-Athletic Training Concentration

Students MUST register for the following course:		<u>Credits</u>
IDFY 101	First Year Seminar	3
ATHT 102	Introduction to Athletic Training	1
APHS 170*	Concepts of Holistic Wellness	2
BIOL 170	Cellular Foundations of Life AND	4
BIOL 170L	Lab: Cellular Foundations of Life	0
ONE of the following:		
MATH 102**	The Mathematics of Growth	3
MATH 108	Intuitive Calculus with Applications	3
OR the following combination:		
MATH 111	Calculus I AND	4
MATH 111L	Lab: Calculus I AND	0
MATH 103	Supplemental Calculus	1
Please review the Guidelines for Calculus Courses		
*Student athletes who compete in a fall season should <u>not</u> register for APHS 170 in the fall.		
**MATH 102 is the preferred Mathematics course		

Select one of the following General Education options to complete your schedule:	<u>Credits</u>
Language Course (24GE: Language; CHIN, FREN, GERM, SPAN)	3
COMM 105 (24GE: Oral Communication)	3
